**CONSTITUTION**

Eurizon Capital S.A., the Management Company, was incorporated as a Limited Company under the Laws of the Grand Duchy of Luxembourg. The Management Regulations were published in the "Memorial" on 28 September 1988.

Eurizon Fund (the "Fund") was created in the Grand Duchy of Luxembourg on 27 July 1988 and is administered by Eurizon Capital S.A. (the "Management Company") by virtue of Management Regulations published on 28 September 1988 in the "Mémorial, Recueil Spécial des Sociétés et Associations" in the Grand Duchy of Luxembourg, after submission to the "Registre de Commerce et des Sociétés" in Luxembourg. Amendments were made to the Management regulations and were published in the "Mémorial, Recueil Spécial des Sociétés et Associations" in the Grand Duchy of Luxembourg on 20 January 1991, 13 November 1992, 10 September 1998, 10 June 2000, 20 September 2002, 17 October 2003, 9 September 2005 and 3 July 2006. The notification of the filing with the "Registre de Commerce et des Sociétés" in Luxembourg of the latest modifications to the Management Regulations were published in the "Mémorial, Recueil Spécial des Sociétés et Associations" on 14 May 2007, 14 December 2007, 20 March 2008, 27 February 2009, 20 October 2009, 22 March 2010, 11 June 2010, 20 June 2011, 1 February 2012, 29 June 2012, on 28 April 2014, on 8 August 2014, on 16 January 2015, on 30 March 2015, on 5 June 2015, on 19 February 2016 and on 22 July 2016. The Management Regulations in force have been filed with the "Registre de Commerce et des Sociétés" in Luxembourg, where they may be consulted and where copies may be obtained.

The name of the Fund was modified pursuant to the decision made by the Board of Directors of the Management Company on 24 August 1998 from "Sanpaolo ECU Fund" to "Sanpaolo International Fund". The Management Company has decided to modify the Fund's name from "Sanpaolo International Fund" to "Eurizon EasyFund" with effective date 26 February 2008.

The Fund was formerly known as Eurizon EasyFund. Following a decision from the Board of Directors of the Management Company on 26 July 2016, it was resolved to change the name of the Fund to Eurizon Fund. This change became effective upon issuance of the Prospectus dated 17 February 2017.

The Fund is an umbrella fund. The Sub-Funds which are active during the year are listed below:

**REMUNERATION POLICY (UNAUDITED)**

The Remuneration Policy of Eurizon Capital S.A. (hereinafter also referred as the "Company") is based on the principles applied in the Intesa Sanpaolo Group including:

- alignment with the interests of shareholders, customers and their assets under management, the medium and long term strategies and objectives, under a framework of reference rules aimed at avoiding conflict of interests, and at the proper control of current and future business risks and ensuring an adequate level of liquidity and capitalization;
- consistency with and promotion of sound and effective risk management and discouragement of risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the assets managed;

The Remuneration Policy has been prepared on the basis of the Intesa Sanpaolo Group's remuneration policies and, for what is not in conflict, not governed or more restrictive, in compliance with European and national regulations governing the asset management industry:

- 
- the Law of 12 July 2013 on alternative investment fund managers (transposing the EU Directive 2011/61/EU - the AIFM Directive), and
  - the Law of 17 December 2010 relating to undertakings for collective investment (transposing the EU Directive 2014/91/UE - the UCITS V Directive).

### **Governance Structure**

All incentives and reward systems for the Company's personnel are subject to the following types of conditions:

- activation conditions for the Group and the Company, consisting of liquidity, capitalisation and financial parameters;
- financing conditions of the mechanism of bonus funding for the Group and the Company, according to a top-down approach such as to take into account the exceeding of certain liquidity, capitalisation and financial parameters, in the first place at the level of the Group and, therefore, of the Company;
- individual access condition, meaning the level of achievement of the individual performance objectives, subject to the verification of the absence of individual compliance breaches. The individual performance objectives include financial as well as non-financial criteria.

The Board of Directors of the Company establishes and reviews annually the remuneration policy of the Company and ensures consistency with the overall policy of the Company in terms of risk-taking, the strategy and long-term, corporate governance structure and internal control objectives. It involves the Conducting Officers, each for their own responsibilities, in the definition and implementation of the Remuneration Policy.

The Company decided to entrust the Independent Directors Committee with the advisory and consulting functions aimed to support the Board of Directors in all activities relating to remuneration, defined in accordance with the principles set out in the ESMA Guidelines on sound remuneration policies (ESMA 232/2013 and 411/2016). The Committee is entirely composed of independent members. External persons can still participate in the meetings of the Committee in relation to specific items.

The internal process related to the governance of remuneration involves the Human Resources, the Risk Management, the Compliance and the Operations & Finance departments, each under the supervision of the respective Conducting Officer.

The Corporate Control Functions verify, for each area of competence (Risk Management, Compliance, Internal Audit), the alignment of the remuneration practices with the approved policies and the applicable regulations.

The ex-ante annual independent internal review of the remuneration system concluded its design to be appropriate.

### **Compensation Structure**

The compensation of personnel includes:

- Fixed component, defined on the basis of the contractual category, the role held and the extent of responsibilities, reflecting the experience and skills required, as well as the quality of the contribution to corporate results;
- Variable component, linked to employee's performance and aligned with the annual results actually achieved and the risks prudentially assumed.

The criteria for the definition of the Company incentive systems, in application of the Intesa Sanpaolo Group's remuneration policy, aimed at ensuring the correlation between remuneration, performance and risks are, among others:

- the measurement of performance from multiple perspectives in order to align the management and employees behaviour to medium and long term strategic drivers, both quantitative (profitability, growth, productivity, cost of risk / sustainability) and qualitative (strategic actions or projects and managerial quality), on different perimeters (Group / Structure / Individual);
- the principle of selectivity, by differentiating the best performances and assigning higher bonuses;
- the principle of financial sustainability, by the definition of a bonus pool correlated to the performance of a Group parameter, currently identified as Income before tax from continuing operations and the use of a solidarity mechanism, according to which the amount of total bonuses paid to the employees of each Business Unit depends in part on the Group's overall performance (reflected in the size of the bonus pool) and in part on the degree of expected contribution to the Group's results;
- the definition of target bonus for roles and professional clusters to be used across all Group, in order to guarantee internal balance and the ongoing benchmarking between roles and/or professional clusters Group target bonuses and external market practices;

---

– the verification of the so-called individual compliance breaches as a restriction to bonus accrual (disciplinary measures, serious findings received from the Bank's control functions, sanctions by the Supervisory Authorities).

Vesting of the variable remuneration for Risk Takers is governed by specific rules in terms of:

- Deferral mechanisms;
- Payment partly in cash and partly in instruments and retention period for units/shares of funds;
- *Ex-post* adjustment mechanisms - *malus* or clawback.

### **Compensation for 2021**

In accordance with the Law as of 17 December 2010 on Undertakings for Collective Investments (as subsequently amended) in conjunction with the guidelines on sound remuneration policies under UCITS published by the European Securities and Markets Authority (ESMA), the Company has identified individuals who have a material impact of the Company's risk profile (Material Risk Takers).

The regulations provide rules in relation to the variable component of the compensation of Risk Takers, indicating that:

- at least 40% of the variable component (60% for significant bonuses) must be subject to deferred payment for a period of 3 years (5 years for significant bonuses);
- a substantial portion (at least 50%) is paid out in units / shares of funds managed by the Company, or equivalent instruments; said percentage is applied, in the same proportion, to both the deferred and upfront portions of the variable component;
- there is a specific holding period (of no less than 2 years for the upfront component, and shorter for the deferred portion) for the vesting of the financial instruments referenced above.

In case the Variable Compensation is lower than EUR 80 000, the Material Risk Takers receive their entire Variable Compensation in cash without any deferral.

The following aggregate compensation has been paid by the Company to its Material Risk Takers and Other Staff in 2021 (in EUR) in relation to all its activities:

Number of employees on an annual average: 70,4

Total Compensation: 8 959 031

Fixed Pay: 7 963 943

Variable Compensation: 995 088

Total Compensation for Material Risk Takers (including Senior Management): 2 379 110

Total Compensation for Other staff: 6 579 921

In addition to the compensation paid by the Company to its Material Risk Takers and Other Staff, as reported above, the aggregate remuneration paid to their own staff by the Investment Managers delegated by the Company to manage some Sub-Funds of the Fund has been estimated at EUR 15 347 926,25 based on the latest available annual accounts of these companies.

## **BOARD OF DIRECTORS OF THE MANAGEMENT COMPANY'S REPORT ON THE MANAGEMENT OF THE FUND**

Dear Unitholders,

The reference period (1 January - 31 December 2021) was characterised by an extraordinary re-acceleration of global growth, supported by the reopening of many economic activities, in turn made possible by the vaccination campaign that began at the end of 2020. As a side effect, there was a significant increase in inflation that Central Banks and financial markets interpreted as transitory. In the final months of the year, however, in the face of an increasingly complete macroeconomic recovery and an inflation persisting longer than expected, the Central Banks, in particular the Federal Reserve (or "Fed", the US Central Bank), began a monetary policy normalisation process which will most likely be the main 2022 financial markets topic of interest.

Concerning the pandemic, 2021 saw the appearance of new variants of the virus whose impact on the economy and market volatility was decidedly contained compared to 2020.

Among the themes characterising the year, the generalised weakness of the economies of the Emerging Countries should also be mentioned, penalised, in general, by the restrictive monetary policies aimed at containing inflation. China, in particular, was affected by constraints in credit availability and by a series of anti-market regulatory measures decided against some private companies.

In this context, the global equity market recorded a gain in local currency of +24.20% in 2021 (MSCI World index; the performance in EUR rises to +31.10%). The US stock market (MSCI USA index) continued the recovery started in 2020, recording a result in local currency of +26.50% (+36.10% in EUR) in 2021. This result reflects the rapid economic recovery sustained by the reopening after the recession triggered by the pandemic. A positive tone was also observed for the other stock exchanges, with the Eurozone (MSCI EMU index) showing a 22.2% increase. The Emerging Markets in aggregate (MSCI Emerging Markets index) were essentially stagnating, recording a result in local currency of -0.20% (the performance in EUR rises to +4.90%) and being affected in Asia by the Chinese slowdown and, in Latin America, by restrictive monetary policies.

Negative returns were recorded for government interest rates which started to rise again after the sharp decline following the pandemic crisis. In the first quarter of 2021 long-term rates in the US rose to pre-Covid levels, reflecting the strong macroeconomic acceleration triggered by the reopening. However, rate normalisation was suspended from March onwards, both because the persistence of the pandemic slowed down reopening, and because the sharp rise in inflation pushed the Fed to a less accommodative stance, raising questions about the duration of the expansionary cycle. In November, the Fed began reducing its purchases of securities (performing the so-called "tapering"), heralding the start of rate hike in 2022 and these decisions caused shorter-term rates, which had been stuck until then, to rise. The 10-year US went from 0.90% to 1.50%, the 2-year from 0.1% to 0.70%.

German long-term interest rates followed US interest rates in terms of direction, but to a lesser extent: the 10-year Bund fell from -0.60% to -0.20%. On the other hand, short-term rates scarcely move: the 2-year Bund remained in the area of -0.70% for the whole year, reflecting an attitude of the European Central Bank ("ECB") being still very accommodative and more expansive than the Fed. In the Eurozone, in the first half of the year, the recovery was slower than in the US and governmental attitudes towards the new waves of the virus was more stringent. Furthermore, the rise in inflation was more contained in Europe than in the US. In its December meeting, however, the ECB announced a gradual reduction in security purchases starting from March 2022.

The 10-year Italy-Germany spread (i.e. the interest rate differential) went from 110 to 135 basis points (bps) over the year, having reached 90 bps in February, with an increase concentrated entirely in the last quarter of

2021. In the final months of the year, the widening of the spread was due to two reasons: the expectation of a less accommodative attitude of the ECB in 2022 and the political uncertainty linked to the election of the President of the Republic at the end of January 2022 with possible impacts on government stability.

In summary, in 2021 the global government bond market (JPM Global index) recorded a performance in local currency of -2.50% (+0.60% in EUR). The Eurozone (JPM EMU) recorded -3.50%, the US market (JPM USA) recorded -2.60% in local currency (which in EUR rises to +4.80%) and the Emerging Countries showed a decline of 4.50% (which converted into EUR becomes a gain of 2.70%).

In the currency market, the euro weakened by 7.10% against the US dollar, by 6.20% against the British pound and by 4.20% against the Swiss franc while it strengthened by 3.70% against the yen.

Currency dynamics had an impact on the performance converted into EUR of the markets outside the Eurozone.

## Participation and voting rights in Shareholders' Meetings

Eurizon Capital S.A. (hereinafter also referred as the "Company") believes that good standards of governance contribute to promote confidence in the capital market and that the role played by institutional investors, asset managers and their advisors is fundamental in the internal dialogue of the investee companies. The Company has a fiduciary commitment aimed at protecting and creating value for its Clients and Investors, which requires it to effectively address issues related to the corporate performance of the companies in which it invests on behalf of the assets under management. In this context, the Company attaches importance to the supervision

of the so-called "external corporate governance", understood as corporate governance in relation to issuing companies.

The Company gives particular attention to the policies implemented by issuers in which it invests on behalf of the products it manages, in the belief that sound corporate governance policies and practices (incorporating environmental, social and governance issues) are able to create long-term shareholder value. The Company has also adopted a methodology for the selection of financial instruments that takes into account the principles of Sustainable and Responsible Investments (SRI).

The Company has adopted specific organisational and/or procedural measures in order to guarantee, in the presence of the discretionary attribution of the exercise of voting rights relating to the shareholdings "managed" by the Company, independence and autonomy in the exercise of participation and voting rights. Consequently, the Company has made available to investors a specific "Strategy for the exercise of participation and voting rights attached to the financial instruments held in the managed UCITS". The Strategy defines a set of procedures and measures for: - monitor corporate events related to the financial instruments in the portfolio of the managed UCIs, where required by the characteristics of the financial instruments incorporating the rights to be exercised;

- assess the modalities and timing for the possible exercise of participation and voting rights, based on a cost-benefit analysis that also takes into account the investment objectives and policy of each managed UCI.

In this context, the Company adopts a "targeted" approach to corporate governance, favouring - in application of the principle of proportionality - participation in Shareholders' Meetings and engagement with companies considered "relevant" according to qualitative/quantitative criteria specified in internal regulations:

- participation in the shareholders' meetings of those companies in which significant shares of capital are held, as identified from time to time in company procedures, interacting with the Board of Directors;
- participation in Shareholders' Meetings considered relevant in the interest of the assets managed in order to discourage situations of particular interest, in protection or support of the interests of minority shareholders;
- contribution to the election of statutory auditors or directors through the list voting mechanism, representing minority shareholders;
- participation in Shareholders' Meetings at which extraordinary transactions are approved if, depending on the interests of the assets under management, participation is necessary to support or oppose the proposed transaction.

In the reference period (1 January 2021–31 December 2021), the Company participated to these Shareholders' Meetings for the following sub-funds:

## Report of the Réviseur d'Entreprises Agréé

To the Unitholders of  
Eurizon Fund  
28, Boulevard de Kockelscheuer  
L-1821 Luxembourg

### Opinion

We have audited the financial statements of Eurizon Fund (the "Fund") and of each of its sub-funds which comprise the statement of net assets, the portfolio, the commitments on future contracts, the option contracts, the forward foreign exchange contracts and the swap contracts as at 31 December 2021, and the statement of changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other matter

The financial statements of the Fund for the year ended 31 December 2020 were audited by another "réviseur d'entreprises agréé" who expressed an unmodified opinion on those financial statements on 28 April 2021.

**Building a better  
working world**

### **Other information**

The Board of Directors of the management company of the Fund (the "Board of Directors") is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### **Responsibilities of the Board of Directors for the financial statements**

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### **Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**Building a better  
working world**

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds (except for the sub-fund where a decision or an intention to close exists) to cease to continue as a going concern.
- In respect of the sub-fund where a decision or an intention to close exists, we conclude on the appropriateness of the Board of Directors' use of the non-going concern basis of accounting. We also evaluate the adequacy of the disclosures describing the non-going concern basis of accounting and reasons for its use. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé".
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**EY**

**Building a better

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

The accompanying notes form an integral part of these financial statements.

**1. ACTIVITY**

The Investment Fund Eurizon Fund (hereafter referred to as the "Fund") was established in the Grand Duchy of Luxembourg on 27 July 1988 in accordance with the Law of 30 March 1988 regulating Undertakings for Collective Investment. The Fund is subject to part I of the Luxembourg Law of 17 December 2010 relating to Undertakings for Collective Investment.

The Fund is a joint ownership of transferable securities and other financial assets, administered for the exclusive benefit of its participants by Eurizon Capital S.A. (hereafter referred to as the "Management Company"), a limited company established on 27 July 1988 with its registered office in Luxembourg.

There is no maximum limit set on the amount of wealth or the number of Units of jointly owned property which comprise the assets of the Fund. The minimum net assets of the Fund are to be at least EUR 1 250 000,00.

In order to offer investments with different levels of risks, the Fund is subdivided into a wide range of Sub-Funds (each "the Sub-Fund" and together "the Sub-Funds").

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Fund keeps the books of each Sub-Fund in its respective currency and the financial statements are prepared in Euro in accordance with the Luxembourg regulations relating to Undertakings for Collective Investment and in particular using the following valuation rules:

## a) Valuation of investments in securities

Investment securities, including zero-coupon bonds and money market instruments quoted on an official stock exchange or on another regulated market are valued according to the last known price at the time when the valuation is carried out, and, in the event of being quoted on several markets, according to the last known price of the principal market.

Valuation of investment securities, including zero-coupon bonds and money market instruments, not quoted on an official stock exchange or on another regulated market is fixed in a reasonable way on the basis of the sale prices anticipated cautiously and in good faith or, in the absence of a market value, according to the probable value in the reasonable estimation of the Board of Directors of the Management Company.

The value of each investment in open-ended funds, either listed or not, is based on the last known Net Asset Value on the Valuation Day.

## b) Net realised profit / (loss) on sales of investments

Realised profits or losses made on the sales of investments are calculated according to the average cost.

## c) Option contracts

Option contracts quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market.

Option contracts not quoted on an official stock exchange or on another regulated market are valued at their last known market value or, in the absence of a market value, according to their probable market value in the reasonable estimation of the Board of Directors of the Management Company.

Premiums received on the written option contracts are recorded as liabilities and premiums paid on purchased option contracts are recorded as assets. Unrealised profits and losses on option contracts are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on option contracts".

In the case of options on futures, no premium margin is required because here a daily profit and loss adjustment (variation margin) is made by the procedure known as "marking-to-market". The profit of one party to the contract is the loss of the other party. The resulting profits and losses are either debited or credited to the appropriate account on a daily basis via the mark-to-market process. The final valuation is made at the final settlement price of either the expiration date of the option or the day on which it was exercised.

## d) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward foreign exchange rate for the remaining period to run until maturity at the date of valuation. Unrealised profits and losses are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on forward foreign exchange contracts".

**e) Future contracts**

Commitments related to future contracts are recorded off balance sheet and future contracts are valued according to the last available contract price. Unrealised profits and losses on future contracts are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on future contracts". Guarantee deposits and margin calls are recorded under the Statement of Net Assets under the headings "Other banks and broker accounts" and "Amounts due to brokers".

**f) Swap contracts**

Swaps are, in general, contracts by which two parties commit themselves during a given period to exchange two flows, one in exchange of the other, determined on the basis of a nominal value. The flows may be linked to interest rate(s), exchange rate(s), share(s), index(es) or credit event(s).

Swap contracts are valued using the difference between the values of forecasted flows the counterparty is to pay to the Sub-Fund and those owed by the Sub-Fund to its counterparties.

Unrealised profits and losses on swap contracts are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on swap contracts".

All the Swap contracts are presented at clean price, therefore the interests related to Swap contracts (except for Total Return Swap and Inflation Swap contracts which are presented at dirty price) are recorded under the heading "Interest received/payed on swap contracts" in the Statement of Changes in Net Assets.

**g) Reverse repurchase agreements**

Reverse repurchase agreements (reverse repos) consist in a purchase of securities with a simultaneous agreement to resell them at a specific future date and price. The sale price corresponds to the purchase price increased by an interest rate. These operations, including accrued interest, are recorded in the Statement of Net Assets under the heading "Reverse repurchase agreements".

For reverse repurchase agreements, interest returns which consist in the difference between the purchase price and the sale price of the securities are accounted for on a pro rata temporis basis over the course of the operation and recorded in the accounts in the Statement of Changes in Net Assets under the heading "Net income from investments".

**h) Combined statements of the Fund**

The combined statements correspond to the sum of the statements of each Sub-Fund. Cross Sub-Funds investments (where one Sub-Fund has invested in another Sub-Fund of the Fund) and related inter-Fund accounts have not been eliminated for presentation purposes of the combined statements. Cross Sub-Funds investments represent 2,55% of the Combined net assets with value of 2 199 393 181,68 EUR as at 31 December 2021. Excluding the cross Sub-Funds investments from the calculations, the combined TNA as at 31 December 2021 is EUR 84 011 465 257,63. Cross Sub-Funds investments are disclosed in the Portfolio as at 31 December 2021 for the respective Sub-Funds.

**i) Cost of purchase of securities in portfolios**

For securities in currencies other than the base currency of the Sub-Fund, the purchase price is converted in the base currency of the Sub-Fund based on the closing exchange rates of the day of purchase.

**j) Income**

Dividends are recognised on the date on which the shares/units concerned are quoted "ex-dividend", net of withholding tax. Interest is calculated on a pro rata temporis basis and recorded net of withholding tax.

**k) Swing Pricing**

On business days when the net number of a fund's units purchased or redeemed exceeds 2% of the fund's total net assets, the management company may value that fund's assets at offer price or bid price, respectively. This adjustment reflects an assessment of the overall costs incurred in buying and selling investments to satisfy purchases or sales of units (understanding that a fund generally maintains adequate daily liquidity to handle ordinary cash flows with little or no impact on ordinary investment operations).

This mechanism was not activated until 31 December 2021.

## I) Translation of items expressed in foreign currencies

Assets and liabilities in foreign currencies are converted into the base currency of the Sub-Fund at the closing exchange rates of the final day of the financial year.

Income and expenses in currencies other than the base currency of the Sub-Fund are converted into the base currency of the Sub-Fund at the closing exchange rates in force on the day of the transaction.

The resulting realised and unrealised profit or loss made on foreign exchange is included in the Statement of Changes in Net Assets; any unrealised profit or loss on cash positions, receivable on assets and payable on liabilities denominated in currencies other than the base currency of the Sub-Fund being recorded under the heading "Change in unrealised appreciation / (depreciation) on foreign currencies".

m) Presentation of the Financial Statements

The Financial Statements are presented on the basis of the last official or tradable Net Asset Value (NAV) of the financial year. In accordance with the Prospectus, the NAVs have been calculated on the basis of the last market price available at the time the calculation was performed.

The prices and the exchange rates used to value the portfolios are the following:

- Sub-Funds investing mainly in American and European securities: 31 December 2021 (last business day of the financial period);
- Sub-Funds investing mainly in Asian and Pacific areas securities: 1 January 2022\* if markets are opened on that day, otherwise 31 December 2021, concerning the securities of these regions.

n) Net Asset Value per Unit

The Net Asset Value of each Sub-Fund is equal to the difference between the total assets and the liabilities of the Sub-Fund.

The Net Asset Value per Unit of each Class of Units is calculated by dividing the Net Asset Value by the number of Units outstanding on the day of calculation in the respective Classes of Units.

o) Contracts for difference

In a contract for difference, two parties commit to exchange payments, which replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference are valued at the closing price of the underlying instrument less the financing costs attributable to the relevant contract. When a contract for difference is concluded, the Sub-Fund may be required to deposit an amount ("initial margin") that corresponds to a pre-agreed percentage of the contract price in cash and/or other assets with the broker. The unrealised profit/loss is reported in the Statement of Net Assets. Net realised profit / (loss) and changes in unrealised appreciation / (depreciation) are presented in the Statement of Changes in Net Assets.

Dividends on contract for difference are recognised on the date on which the shares/units concerned are quoted "ex-dividend" and are recognized in the Statement of changes in Net Assets as Dividend received on contracts for difference (for the long positions) and as Dividend paid on contracts for difference (for the short positions).

p) Basis of preparation

These financial statements have been prepared on a going concern basis except for the sub-fund Eurizon Fund – SLJ Enhanced Currency basket where a decision was taken to liquidate them after 31 December 2021.

q) Valuation of instruments in the Money Market Fund

As regards the valuation of the assets of the FCP's Sub-Funds authorised as money market funds in accordance with Regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on money market funds, such assets are valued by using mark-to-market method (means the valuation of positions at readily available close out prices that are sourced independently, including exchange prices, screen prices, or quotes from several independent reputable brokers) whenever possible.

When using mark-to-market method:

- such assets are valued at the more prudent side of bid and offer unless the asset can be closed out at mid-market;
- only good quality market data are used; such data are assessed on the basis of all of the following factors:

- the number and quality of the counterparties;

- the volume and turnover in the market of the asset of the money market fund;
- the issue size and the portion of the issue that the money market fund plans to buy or sell.

The Net Asset Value of any Unit Class in Sub-Funds authorised as money market funds shall be calculated at least daily and rounded to the nearest basis point or its equivalent when the Net Asset Value is published in a currency unit.

### **3. BANKS, BANK OVERDRAFTS, OTHER BANKS AND BROKER ACCOUNTS**

As at 31 December 2021, the counterparty for the "Banks" and "Bank overdrafts" accounts is State Street Bank International GmbH, Luxembourg Branch for all the Sub-Funds. The caption "Other banks and broker accounts" includes cash held with external banks and cash at broker accounts. The caption "Amounts due to brokers" includes amounts payable to brokers. As at 31 December 2021, the counterparties for the "Other banks and broker accounts" and "Amounts due to brokers" accounts are Bank of America Securities Europe S.A., Barclays Bank Plc., BNP Paribas S.A., Citigroup Global Markets Europe AG, Crédit Agricole Corporate and Investment Bank, Deutsche Bank AG, Goldman Sachs Bank Europe SE, Intesa Sanpaolo S.p.A., JP Morgan AG, Morgan Stanley Europe SE, Société Générale S.A., UBS Europe SE.

### **4. TAXATION**

The Fund is governed by Luxembourg tax laws applicable to investment funds. It is up to prospective purchasers of Units of the Fund to inquire about the laws and rules applicable to the acquisition, holding and possibly sale of Units, taking into account their residence or nationality.

As legislation now stands, the Fund is subject to a Luxembourg tax at an annual rate of 0,05% calculated and payable quarterly on the Net Asset Value of each Sub-Fund at the end of each quarter in question. The rate of the annual subscription tax is fixed at 0,01% for the Sub-Funds or Classes of Units, if the Units in these Sub-Funds or Classes are reserved for one or more Institutional Investors, as well as for Sub-Funds whose exclusive aim is the collective investment in money market instruments and/or deposits with credit institutions.

The value of the assets represented by units/shares held in other Luxembourg UCIs shall be exempt from the subscription tax, provided such UCIs have already been subject to the subscription tax.

### **5. OTHER CHARGES AND TAXES**

The caption "Other charges and taxes" is composed of professional fees (administrative commission, miscellaneous). The auditors fees, expenses involved in preparation, printing and filing of administrative documents and explanatory memoranda with any authorities and bodies, expenses related to preparation, distribution and publication of notices to Unitholders, including publication of Net Asset Value per Unit on newspapers distributed in countries in which the Units are offered or sold or on any other recognised and legally binding media, fees relative to registration with any institution or authority, and the fees relative to the Fund's listing on a stock exchange are borne by the management company.

### **6. MANAGEMENT FEE**

The Management Company, as remuneration for its services, is entitled to receive a management fee calculated according to the Net Asset Value of each Sub-Fund of the Fund. For the year ended 31 December 2021, the rates in force for each Sub-Fund are the following:

## 8. DEPOSITORY AND PAYING AGENT FEE

The Depositary Bank received a fee payable quarterly and calculated on the quarterly Net Asset Value. This fee is borne by the Management Company out of its administrative fee.

Furthermore, in accordance with the current Depositary Bank and Paying Agent convention, the Depositary Bank has received during the financial year, for all of the active Sub-Funds during the year, a global amount of EUR 7 639 841,16 (for transaction fees) registered in the Statement of Changes in Net Assets under the heading "Other charges and taxes" in relation to paying agent services.

## 9. FORWARD FOREIGN EXCHANGE CONTRACTS, FUTURE CONTRACTS, OPTION CONTRACTS, SWAP CONTRACTS AND CONTRACTS FOR DIFFERENCE

During the financial year, certain Sub-Funds have taken out forward foreign exchange contracts, future contracts, option contracts, swap contracts and contracts for difference. Details of open positions as at 31 December 2021 are disclosed following the Portfolios of the concerned Sub-Funds.

Swaps, comprising Interest Rate Swaps, Credit Default Swaps, Total Return Swaps and Inflation Swaps, can be linked to any number of underlying investments and indexes, and swap terms can vary greatly. Cash flows are exchanged based on the underlying. Upfront payments, which represent a risk premium, are amortised straight-line over the contract term. Swap agreements are carried at market value and the value of the swap agreement is based on a counterparty independent provided price, third party pricing service or valuation model. The model considers various inputs including the market value of the underlying, the risks associated with the underlying and the specific terms of the contract.

As at 31 December 2021, Intesa Sanpaolo S.p.A. is the broker for all the future contracts.

For the swaps contracts the counterparties are disclosed following the portfolios in the open positions.

**15. MONEY MARKET FUND REGULATION**

The following Sub-Funds have been identified as falling under the scope of the Money Market Fund Regulation (EU) 2017/1131 (the "Regulation") and accordingly fulfill the requirements of the Regulation as from 21 January 2019:

<b>Sub-Fund</b>	<b>Type of MMF</b>	<b>Impact on the pricing policy</b>
Eurizon Fund - Money Market EUR T1	Standard Variable NAV	No impact
Eurizon Fund - Money Market USD T1	Standard Variable NAV	No impact
Eurizon Fund - Cash EUR	Standard Variable NAV	No impact

**16. SECURITIES LENDING TRANSACTIONS**

The Fund may lend securities but only under the conditions and procedures specified by recognised clearing systems or by another first-bank financial institution specialized in this kind of operations.

Over the course of the financial year, the Fund has entered into various securities lending agreements with a specialized financial institution, authorizing the latter to carry out lending transactions of the Fund's securities. In relation to its lending transactions, the Fund must receive security of a value which, at the conclusion of the lending agreement, must be at least equal to the value of the global valuation of the securities lent.

This collateral must be given in the form of cash and/or of securities issued or guaranteed by member states of the OECD or by their local authorities or by supranational institutions and organizations with EU, regional and worldwide scope and blocked in favor of the Fund until termination of the lending contract.

The following summarises the value of securities lent analysed by borrowing counterparty as at 31 December 2021:

Securities lending transactions are entered into by the Funds under a securities lending agreement. All collateral received by the Funds under the securities lending agreement is transferred under a title transfer arrangement. The collateral is held in custody by a sub-custodian of the depositary for the duration of the transaction.

The income earned from the securities lending is reflected net of fees in the Statement of Changes in Net Assets under the heading "Other Income". State Street Bank GmbH, London Branch receives a 15% fee for its services. As a result, the Fund receives 85% of the gross revenues generated from securities lending which was recorded by Sub-Fund as follows (in EUR):

#### **18. SUBSEQUENT EVENTS OCCURED AFTER THE YEAR END**

Since February 2022, a number of countries and organizations (including the US, UK and EU) have imposed sanctions against certain entities and individuals in Russia as a result of the official recognition of the Donetsk People Republic and Lugansk People Republic by the Russian Federation and military operations initiated by Russia against the Ukraine. The situation, together with growing turmoil from fluctuations in commodity prices and foreign exchange rates, and the potential to adversely impact global economies, has driven a sharp increase in volatility across markets. The Directors regard these events for the Fund and any of its Sub-Funds as non-adjusting events after the reporting period. Although neither the Fund's and any of its Sub-Funds performance and going concern nor operations, at the date of this report, have been significantly impacted by the above, the Directors continue to monitor the evolving situation and its impact on the financial position of the Fund and any of its Sub-Funds.

The following Sub-Fund was liquidated on 24 February 2022:

- Eurizon Fund – SLJ Enhanced Currency Basket

The following Sub-Funds will merge on 13 May 2022:

### **Sustainable Finance Disclosure Regulation (SFDR)**

Starting from 10 March 2021, in accordance with the Regulation (EU) 2019/2088 (Sustainable Finance Disclosure Regulation – "SFDR"), the Company amended its Sustainability Policy describing the financial instrument selection and monitoring methodologies adopted by the Company in order to include the sustainability risk analysis as part of its decision-making process on investments relating to collective asset management services. On 30 June 2021, the Company also published the policy related to the Principal Adverse Sustainability Impacts pursuant the provisions of (i) Article 4 of Regulation (EU) 2019/2088 and (ii) the related implementing regulations. Based on the Company's amended Sustainability Policy and assessments of the process set-up by each delegated investment manager, presence of minimum ESG processes and objectives have been set for each category corresponding to Articles 6, 8 or 9.

The Company adopts screening methodologies of issuers, aimed at identifying those operating in sectors considered not "socially responsible" (SRI Restrictions) as well as those characterized by a high exposure to environmental, social and corporate governance risks (ESG Restrictions or "critical issuers"). The Company has also adopted a specific "Engagement Policy", adopting specific organisational and/or procedural measures that regulate the participation in the Shareholders' Meetings and the comparison (so-called "engagement") with the companies considered relevant.

#### **Sub-Funds categorized SFDR Article 6**

Cash EUR, Bond EUR Medium Term LTE, Bond USD Short Term LTE, Equity North America LTE, SLJ Flexible Global Macro, Equity Europe LTE, Equity Euro LTE, Equity Japan LTE, Global Bond LTE, Bond Italy Floating Rate LTE, Bond GBP LTE, Bond JPY LTE, Bond USD LTE, Dynamic Asset Allocation, Bond EUR Long Term LTE, Bond EUR Short Term LTE, Bond Aggregate RMB, Bond Short Term EUR T1, Equity Pacific ex-Japan LTE, Equity Emerging Markets LTE, SLJ Enhanced Currency Basket, Bond EUR 1-10 y LTE, Equity World LTE, Securitized Bond Fund, Bond EUR All Maturities LTE, Bond Italy Short Term LTE, Bond Italy Medium Term LTE, Bond Italy Long Term LTE, Bond Corporate EUR Short Term LTE, Bond Emerging Markets HC LTE, Bond Emerging Markets LC LTE, Equity USA LTE, Equity Market Neutral, Money Market EUR T1, Money Market USD T1, Flexible Multistrategy.

The above listed Sub-Funds are managed by considering environmental, social and governance (ESG) criteria when assessing investment risks and opportunities pursuant to Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability reporting in the financial services industry.

#### **Sub-Funds categorized SFDR Article 8**

Bond Aggregate EUR, Bond Corporate EUR Short Term, Equity Small Mid Cap Europe, Bond Emerging Markets, Bond High Yield, Absolute Prudent, Absolute Active, Absolute High Yield, Sustainable Global Equity, Equity Italy Smart Volatility, Equity USA, Bond Flexible, Conservative Allocation, Bond Corporate Smart ESG, Global Multi Credit, Azioni Strategia Flessibile, Italian Equity Opportunities, SLJ Local Emerging Markets Debt, Active Allocation, Equity China A, Equity China Smart Volatility, Equity Emerging Markets Smart Volatility, Equity World Smart Volatility, Asian Equity Opportunities, China Opportunity, Euro Emerging Markets Bonds, Sustainable Multiasset, Top European Research, Bond Corporate EUR, Sustainable Japan Equity, Equity USA ESG LTE, Equity Europe ESG LTE, Equity Planet, Equity Innovation, Equity People, Bond Euro High Yield, Bond Emerging Markets in Local Currencies ESG, Flexible Europe Strategy, Flexible US Strategy, Bond Inflation Linked, Global Bond.

The above listed Sub-Funds have (E) environmental and (S) social characteristics and promote investment into assets which follow good governance (G) practices in accordance with article 8 of the Sustainable Finance Disclosure Regulation ("SFDR"). The Sub-Funds might invest in activities that are environmentally sustainable which are selected according to their investment policy, but such investments are not per se decisive to the attainment of the fund's environmental and/or social characteristics.

In addition to integrating sustainability risks into investment decisions, the Company considers ESG factors in the analysis and selection of financial instruments with the aim of achieving an ESG score, calculated at the overall portfolio level, which is higher than the ESG score of the investment universe or of the benchmark, if any, using data from the specialised info-provider "MSCI ESG Research". The ESG score of the Sub-Fund is calculated as a weighted average of the ESG scores of the issuers of the financial instruments in the portfolio. In addition, the Sub-Funds Azioni Strategia Flessibile, Equity Planet and Sustainable Global Equity integrate assessments related to the measurement of carbon dioxide (CO<sub>2</sub>) emissions generated by issuers into their portfolio construction process aim to achieve a lower ecological footprint than their investment universes or benchmarks, if any.

Without prejudice to the integration of sustainability risk analysis, the Sub-Funds categorized SFDR Art. 6 and 8 do not, however, promote the specific environmental objectives identified in Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 establishing a framework for sustainable investment and amending Regulation (EU) 2019/2088. For the Sub-Funds that integrate assessments related to the measurement of CO<sub>2</sub> emissions generated by issuers, this assessment do not take into account any substantial contribution by issuers to climate change mitigation as required by Article 10 of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020. The investments underlying these financial products do not take into account the EU criteria for environmentally sustainable economic activities.

## **Appendix II (UNAUDITED)**

---

### **Sub-Funds categorized SFDR Article 9**

The Sub-Funds Green Euro Credit and Absolute Green Bonds have sustainable investments as their objective as per Article 9 of the SFDR and also promote other (E) environmental and/or (S) social characteristics. In addition to integrating sustainability risks into investment decisions, the security selection process uses a due diligence programme that aligns with Green Bond Principles (GBP) as defined by the International Capital Market Association (ICMA) and the developing EU Green Bond Standard framework (GBS).

The sustainable investment objective is attained by investing no less than 75% of the portfolio in green bonds. The remaining part of the Sub-Funds' assets is invested in other assets that are not necessarily considered sustainable. The Sub-Funds may invest in activities that contribute to any of the six environmental objectives defined in the EU Taxonomy. The investment manager is dependent upon information and data sources provided by the instruments' issuers and external info providers, which may be incomplete, inaccurate or unavailable. Currently the green bonds internationally recognized standards do not encompass specific requirements related to the EU taxonomy; this is an evolving matter yet to be finalized and highly dependent on the availability of sufficient, reliable, timely and verifiable data from issuers companies. In this regard, the Investment Manager is not in a position to quantify the extent of investments in economic activities that qualify with the EU criteria for environmentally sustainable economic activities. There is no minimum proportion of investments aligned with any specific environmental objective or activity, therefore the minimum share of sustainable investments contributing to environmental objectives under the Taxonomy Regulation is 0%. The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of these financial products do not take into account the European Union's criteria for environmentally sustainable economic activities.

### **Outcome**

During the reporting period (from 10 March 2021 to 31 December 2021) the Company ensured compliance with the sustainability processes established for each category corresponding to Articles 6, 8 or 9.
