Subscriptions and publications

No subscription can be accepted on the basis of financial reports such as this report. Subscriptions may only be accepted on the basis of the current prospectus, supplemented by the Company's latest annual report, and in the event that the Company's annual report has been published more than eight months previously, its latest semi-annual report. Financial reports, the prospectus and Key Investor Information Document are available in through the website www.robeco.com and may be obtained free of charge at the Company's registered office.

Representative and paying agent in Switzerland

ACOLIN Fund Services AG, Leutschenbachstrasse 50, CH-8050 Zürich, is the fund's representative in Switzerland. Copies of the Key Investor Information Document and prospectus, articles of incorporation, (semi) annual reports and a list of all purchases and sales in the investment portfolio during the reporting period are available from the above address free of charge. UBS Switzerland A.G., Bahnhofstrasse 45, CH-8001 Zurich (Postal address Badenerstrasse 574, Postfach, CH-8098 Zürich) is the Company's paying agent in Switzerland.

Information service in Germany

Copies of the articles of incorporation, Key Investor Information Document and prospectus and the annual and semi-annual reports may be obtained free of charge from the offices of the information service in Germany: Robeco Deutschland, Zweigniederlassung der Robeco Institutional Asset management B.V., Taunusanlage 17, D-60325 Frankfurt am Main. The prices at which shares are issued and repurchased are published on www.robeco.de. A list of all purchases and sales in the Company's investment portfolio during the reporting period is available at the paying agent/information service in Germany free of charge.

Representative in Taiwan

Nomura Asset management Taiwan Ltd -30F, No.7, Sec. 5, Xinyi Road, Taipei 110, Taiwan.

Robeco

Where reference is made to 'Robeco', it should be read Robeco Institutional Asset Management B.V. ("RIAM") including the activities of the other entities which are in the scope of Robeco's management.

Merger of J.P. Morgan Bank Luxembourg S.A.

As part of the implementation of the J.P. Morgan legal entity strategy within Europe, J.P. Morgan Bank Luxembourg S.A. merged into J.P. Morgan AG which at the same time changed its legal form from a German Stock Corporation (Aktiengesellschaft) to a European Company (Societas Europaea), being J.P. Morgan SE (the "Merger").

As from 22 January 2022, J.P. Morgan SE, as the legal successor of J.P. Morgan Bank Luxembourg S.A., continued to act as Depositary through its Luxembourg Branch. In the disclosures to the Financial Statements, the new name ("J.P. Morgan SE") is used.

Report of the Board of Directors

General

Website

An information update on the sub funds' investment policies, returns and investment portfolio can be found on www.robeco.com/riam.

Code of conduct

The Board of Directors adheres to the 10 principles of the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct for Luxembourg investment funds and considers the Fund to be in compliance with the principles in all material respects.

Market Impact Covid-19

The company considers the ongoing Covid-19 pandemic as a significant event which may impact the investment funds under management. The impact of the pandemic on people, companies and the economy at large has been significant. Looking ahead, the company sees its impact fading as the pandemic becomes endemic. Higher immunity levels, lower severity of disease due to the Omicron variant and declining sensitivity of economic activity to pandemic restrictions have already notably improved the outlook. Yet, uncertainties remain given significant dispersion in vaccination rates, levels of immunity and Covid variants across the globe. Therefore, a slowdown in the trajectory towards herd immunity as a result of risks relating to vaccine logistics, vaccine side effects, reduced effectiveness, or public resistance to (mandatory) vaccination, may have a negative impact on markets.

Operational measures for business continuity by Robeco

In response to the ongoing Covid-19 crisis, Robeco is constantly monitoring the latest developments and has taken all measures necessary to manage the situation and to ensure business continuity, while ensuring the health and safety of clients, employees and suppliers. The operational measures and capabilities are such that Robeco remains fully functional in managing client portfolios and serving clients. Robeco's systems and platforms are designed to enable its staff, most of whom have worked from home throughout the crisis based on their local health and safety measures, to operate as normal. The approach is one of vigilance and flexibility, allowing to implement new or revised measures smoothly and as necessary.

Report of the investment manager

General market review

In 2021, the global economic business cycle progressed from recovery into accelerating expansion. The latest IMF projections show global real GDP to have grown by 5.9% in 2021 compared to the 3.1% global real GDP contraction in 2020. The ‘trilemma’ challenging policymakers, i.e. solving the Covid health crisis, maintaining economic momentum, and safeguarding personal freedoms all at once, notably eased. Increased vaccination rates and the emergence of milder Covid variants towards the end of 2021 contributed. In addition, the sensitivity of economic activity to pandemic related restrictions declined, partly thanks to increased digitization across sectors. Continuing fiscal-and monetary policy support underpinned the upward growth trajectory in developed markets as well. Leading indicators in the US, like the ISM non-manufacturing index, hit all-time highs.

Yet, the economic landscape in 2021 portrayed widely divergent recoveries. Whilst advanced economies enjoyed above trend GDP growth, the global expansion became less synchronized. Emerging markets experienced a slowdown in the recovery pace on the back of local fiscal overreach, an early tightening cycle by central banks to address rampant domestic inflation and a Chinese policy paradigm shift. The “Common Prosperity” program launched by Chinese president Xi Jinping to boost productivity growth and tackle economic inequality, has produced a regulatory crackdown that has left China’s traditional growth engines (manufacturing, real estate, infrastructure and technology) sputtering. The restructuring of real estate giant Evergrande is exemplary in this respect.

In addition to Covid-19, intensifying supply chain constraints and receding economic slack made inflation top of mind in 2021. With both cyclical- as well as non-cyclical forces exerting upward pressure, the closely watched US core Personal Consumption Expenditure inflation index reached the highest level in 30 years, touching 4.9% in December 2021. Natural disasters like a historic flooding in Germany and Belgium show climate change is becoming more evident by the day. The COP26 climate summit in Glasgow in November 2021 delivered important pledges like halting deforestation, reducing methane emissions and phasing out coal to deliver on the Paris Agreement goal of limiting global warming to 1.5°C above pre-industrial level.

Report of the Board of Directors (continued)

Risk management

The presence of risks is inherent to the character of asset management. It is therefore very important to have a procedure for controlling these risks embedded in the company's day-to-day operations. The manager Robeco, ensures that risks are effectively controlled via the three lines model: Robeco management (first line), the Compliance and Risk Management departments (second line) and the Internal Audit department (third line).

The management of Robeco has primary responsibility for risk management as part of its day-to-day activities. The Compliance and Risk Management departments develop and maintain policy, methods and systems that enable the management to fulfill their responsibilities relating to risk. Furthermore, portfolios are monitored by these departments to ensure that they remain within the investment restrictions under the Terms and Conditions for Management and Custody and the information memorandum, and to establish whether they comply with the internal guidelines. The Risk Management Committee decides how the risk-management policies are applied and monitors whether risks remain within the defined limits. The Group Internal Audit department carries out audits to assess the effectiveness of internal control.

Robeco uses a risk-management and control framework that helps control all types of risk. Within this framework, risks are periodically identified and assessed as to their significance and materiality. Internal procedures and measures are focused on providing a structure to control both financial and operational risks. Management measures are included in the framework for each risk. Active monitoring is performed to establish the effectiveness of the procedures and measures of this framework.

Operational risk

Operational risk is the risk of loss as a result of inadequate or failing processes, people or systems. Robeco constantly seeks opportunities to simplify processes and reduce complexity in order to mitigate operational risks. Automation is a key resource in this regard and Robeco uses systems that can be seen as the market standard for financial institutions. The use of automation increases the IT risk. This risk can be divided into three categories. The risk that unauthorized persons gain access is managed by means of preventive and detective measures to control access to the network and to systems and data. Processes such as change management and operational management ensure monitoring of a working system landscape. Lastly, business continuity measures are in place to limit the risk of breakdown as far as possible and to restore operational effectiveness as soon as possible in the event of disaster. The effectiveness of these measures is tested regularly both internally and externally.

Compliance risk

Compliance risk is the risk of sanctions, financial loss or reputation damage as a result of non-compliance with the laws and regulations applicable to the activities of Robeco and the Company. Their activities – collective portfolio management – are subject to European and local rules of financial supervision. Observance of these rules is supervised by the national competent authorities (in the Netherlands the Authority for the Financial Markets, AFM, the Central Bank of the Netherlands, DNB and in Luxembourg the Commission de Surveillance du Secteur Financier (CSSF)). It is in the interest of investors in the sub-funds that Robeco as well as the Company comply with all the applicable laws and regulations.

The past few years the level of regulation has increased consistently while the regulatory environment is evolving as well by moving from a principle-based to a more rule and evidence based environment. Robeco and the Company actively follow these regulatory developments and are in continuous effort to incorporate all regulatory changes to ensure compliance with rules and regulations.

In 2021, Robeco has further improved its control environment for managing compliance and integrity risks. A Systematic Integrity Risk Assessment has been performed to further identify and assess the integrity risks and to assess the control measures that mitigate the integrity risks. The outcome has been discussed with the business and follow-up actions have been addressed.

Changes in the field of legislation and regulation that could affect Robeco and/or the Company also took place in 2021.

The new EU regulatory framework on sustainable finance, consisting of multiple pieces of legislation, including the new Sustainable Finance Disclosure Regulation (SFDR), Taxonomy Regulation and amendments to existing frameworks (including the UCITS Directive and AIFMD), introduced extended reporting and disclosures, aiming for increased comparability between sustainable funds and to avoid greenwashing. The framework also requires the integration of sustainability (risks) in the organization, governance, risk management and investment processes of the sub-funds.

The requirements entered into force in different phases in 2021. As of March 2021, The company disclosed sustainability related information of all sub-funds, the so called article 6, 8, 9 disclosures. Robeco published its sustainability risk integration approach for investment decisions. On the sub-fund level, Robeco has identified and prioritized the Principal Adverse Impact (PAI) and indicators relevant to Robeco's overall investment strategy and published the PAI-statement on its website.

In 2022, Robeco and the Company will focus on the implementation of the further detailed SFDR requirements in line with the Regulatory Technical Standards.

The aforementioned developments were adequately addressed in the ongoing challenging times, with the Covid-19 pandemic affecting clients, employees, service providers and financial markets. Robeco has proved its resilience as it was able to ensure continuity of operations globally.

Report of the Board of Directors (continued)

Risk management (continued)

Developments Financial Risk Management

Robeco has been continuously working to further enhance its risk management methodologies, infrastructure and processes.

The EU Sustainable Finance Disclosure Regulation (SFDR) entered into force on March 10, 2021. As one of the focus point Financial Risk Management laid the foundations of a risk management framework to assess material sustainability risks and incorporate limits and controls to measure, calculate and manage the sustainability risks in line with the sustainability profile of the sub-funds. This framework covers both internal and external sustainability metrics and climate scenarios and will continue to evolve and remain in focus for 2022 and beyond. All elements are governed by a dedicated sustainability risk policy and integrated in the regular risk workflow, reporting and limits and control framework. For all sub-funds, the binding elements in line with the sustainability profile are integrated in the prospectus. More information on the relevant framework and approach can be found on: www.robeco.com/docm/docu-robeco-sustainability-risk-policy.pdf.

On the risk level of the management company, climate scenarios are integrated in the Internal Capital Adequacy Assessment Process (ICAAP) and monitoring of carbon reduction targets are integrated in the enterprise risk framework.

The Liquidity risk framework has been further enhanced to align with trading practices. This included a relaxation of the strictly proportional scenarios applied before to allow for small deviations from the original portfolio when assessing the liquidity of the fund. Robeco has also been invited to participate in multiple regulatory surveys and data collection exercises to provide the regulatory authorities with detailed information on the liquidity risk profile of various funds.

Global Equity sub-funds (continued)

Performance analysis

Robeco BP Global Premium Equities

Over the reporting period, the sub-fund generated a return of 31.4% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (net return in euros). The sub-fund performed roughly in line with the benchmark for the year as global markets continued to recover from the Covid-19 pandemic struggles. Performance was strong across nearly all sectors, driven primarily by stock selection. Stock selection was strongest in materials and consumer discretionary, while consumer staples and real estate slightly detracted from overall performance. Regionally, stock picking drove outperformance. North American positions drove performance, though Japan and United Kingdom positions also added value. Across the market capitalization spectrum outperformance was added in large and small capitalization positions. With respect to sustainability investing, we qualitatively capture a range of ESG issues, which directly and indirectly affect our decision-making during the course of our characteristics-based investment process.

Robeco QI Global Conservative Equities

Over the reporting period, the sub-fund generated a return of 29.2% (gross of fees in euros) against a return of 27.5% for its reference index, the MSCI All Country World Index (net return in euros).

The principal objective of the sub-fund is to achieve a high Sharpe ratio (i.e. an optimal relationship between absolute return and absolute risk). Using a combination of factors (low risk, value and momentum), the model identifies broad groups of stocks that are likely to outperform on a risk-adjusted basis. The sub-fund outperformed its index in 2021. The low risk factor and momentum factor contributed negatively to relative performance. The value factor made a positive contribution to relative performance. The risk profile of the sub-fund, as measured by volatility, was lower than that of the index.

Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio-construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco Sustainable Global Stars Equities

Over the reporting period, the sub-fund generated a return of 30.3% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (net return in euros).

The sub-fund underperformed the benchmark slightly. The main reason for its underperformance was a negative contribution from stock selection in the energy, industrials, information technology and consumer discretionary sectors. Good results from stock selection in the healthcare, consumer staples, real estate and financials sectors contributed positively to the results. As the sub-fund is focused on maintaining a very good environmental profile, the sub-fund could not benefit from the strong performance of energy and basic materials stocks.

During the reporting period, the overall sustainability profile of the sub-fund was improved further by focusing on material information with regards to environmental, social and governance (ESG) factors. In addition, the environmental profile of the sub-fund was improved further by reducing the fund's overall exposure in terms of water use, waste generation and greenhouse gas emissions the sub-fund relative to the benchmark. The sub-fund has an environmental profile that is close to 50% better than the benchmark average.

Robeco Emerging Stars Equities

Over the reporting period, the sub-fund generated a return of 9.7% (gross of fees in euros) against a return of 4.9% for its reference index, the MSCI Emerging Markets Index (net return in euros). Key positive contributions to relative performance came from the underweight position in China and positive stock selection results in China, South Korea and Brazil. The largest portfolio change during 2021 was a sizable reduction in the China weight owing to concerns about a further regulatory crackdown and a growth slowdown. Weight was added in South Korea and Taiwan, while new positions were bought in Greece, Turkey and Vietnam. The sub-fund maintained its investment policy, which combines active country allocation with stock selection based on fundamental research supported by quantitative models, while ESG factors are fully integrated into the investment process. In addition, the sub-fund limits investments in companies with an elevated sustainability risk profile and we try to improve the sustainability profile of the companies we invest in through engagement.

Robeco Emerging Markets Equities

Over the reporting period, the sub-fund generated a return of 6.3% (gross of fees in euros) against a return of 4.9% for its reference index, the MSCI Emerging Markets Index (net return in euros). The sub-fund outperformed the benchmark index, with key positive contributions coming from the underweight position in China and positive stock selection results in China, South Korea, Mexico and Brazil. The largest portfolio change during 2021 was a reduction in the China weight owing to concerns about a further regulatory crackdown and a growth slowdown. Further weight was added in Greece, Indonesia and Russia, while new positions were bought in Turkey and Vietnam. The sub-fund maintained its investment policy, which combines active country allocation with stock selection based on fundamental research supported by quantitative models, while ESG factors are fully integrated into the investment process. In addition, the sub-fund limits investments in companies with an elevated sustainability risk profile and we try to improve the sustainability profile of the companies we invest in through engagement.

Report of the Board of Directors (continued)

Global Equity sub-funds (continued)

Performance analysis (continued)

Robeco QI Emerging Markets Active Equities

Over the reporting period, the sub-fund generated a return of 15.6% (gross of fees in euros) against a return of 4.9% for its reference index, the MSCI Emerging Markets Index (net return in euros).

The investment objective of the sub-fund is to outperform its index, the MSCI Emerging Markets Index, with the aid of a quantitative stock selection model. Using a combination of factors (value, quality, momentum and analyst revisions), the model identifies broad groups of stocks that are likely to outperform in the long run. The sub-fund's relative performance was positive. The value, quality, momentum and analyst revisions factors all made a positive contribution to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a medium level of active risk. Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio-construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI Global Momentum Equities

Over the reporting period, the sub-fund generated a return of 41.4% (gross of fees in euros) against a return of 27.5% for its reference index, the MSCI All Countries World Index (net return in euros), outperforming the reference index in a bullish market environment. The valuation factor made a negative contribution to the relative performance of the fund. The momentum, quality and low risk factors made a positive contribution to the relative performance of the sub-fund. The risk profile of the sub-fund, as measured by volatility, was higher than that of the index.

Sustainability factors are integrated into the investment policy. The sustainability scores take into account environmental, social and governance (ESG) factors. The investment process is highly disciplined and ensures that the sub-fund's overall sustainability score is higher than or equal to the overall sustainability score of the benchmark. This means that a stock with a good ESG score is more likely to be included in the portfolio. Companies with a poor ESG score have less chance of being included in the portfolio. In addition, the environmental footprint of the portfolio, as measured by greenhouse gas emissions, is lower than or equal to that of the benchmark. This means that a stock with a low environmental footprint is more likely to be included in the portfolio. Companies with a poor environmental footprint have less chance of being included in the portfolio.

Robeco QI Global Developed Sustainable Enhanced Index Equities

Over the reporting period, the sub-fund generated a return of 33.2% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (net return in euros).

The investment objective of the sub-fund is to outperform its index, the MSCI World Index, with the aid of a quantitative stock selection model. Using a combination of alpha factors (value, quality, momentum and analyst revisions), the model identifies broad groups of stocks that are likely to outperform in the long run, while at the same time adhering to significant sustainability improvements in the portfolio construction process. The sub-fund's relative performance was positive. The alpha factors made a positive contribution and the sustainability factors made a neutral contribution to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a low level of active risk. Sustainability is integrated into the investment policy of the sub-fund. The sub-fund aims to achieve a 20% higher sustainability score and a 20% lower environmental footprint on three dimensions (carbon, water and waste) versus its index while excluding controversial companies.

Robeco QI Emerging Markets Enhanced Index Equities

Over the reporting period, the sub-fund generated a return of 2.3% (gross of fees in US dollars) against a return of -2.5% for its reference index, the MSCI Emerging Markets Index (net return in US dollars).

The investment objective of the sub-fund is to outperform its index, the MSCI Emerging Markets Index, with the aid of a quantitative stock selection model. Using a combination of factors (value, quality, momentum and analyst revisions), the model identifies broad groups of stocks that are likely to outperform in the long run. The sub-fund's relative performance was positive. The value, quality, momentum and analyst revisions factors made a positive contribution to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a low level of active risk. Sustainability is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI Emerging Conservative Equities

Over the reporting period, the sub-fund generated a return of 12.7% (gross of fees in US dollars) against a return of -2.5% for its reference index, the MSCI Emerging Markets Index (net return in US dollars).

Robeco QI Emerging Conservative Equities (continued)

The principal objective of the sub-fund is to achieve a high Sharpe ratio (i.e. an optimal relationship between absolute return and absolute risk). Using a combination of factors (low risk, value and momentum), the model identifies broad groups of stocks that are likely to outperform on a risk-adjusted basis. The sub-fund outperformed the index in 2021. The low risk, value and momentum factors contributed positively to relative performance. The risk profile of the sub-fund, as measured by volatility, was lower than that of the index.

Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco Emerging Markets Smaller Companies Equities

Over the reporting period (up until the end of November, after which the sub-fund was liquidated) the sub-fund (7.1% gross of fees in US dollars) outperformed its reference index, the MSCI EM Midcap Index (4.6% net return in US dollars), driven mostly by strong allocation. The contribution from stock selection was negative. The overweight position in China and Taiwan as well as the underweights in Malaysia and Turkey contributed to performance. Stock selection was particularly strong in Russia and India. The sub-fund maintained its investment policy, which combines active country allocation and stock selection based on fundamental research, supported by quantitative models and the inclusion of ESG factors.

Robeco QI Global Value Equities

Over the reporting period, the sub-fund generated a return of 31.5% (gross of fees in euros) against a return of 27.5% for its reference index, the MSCI All Countries World Index (net return in euros), outperforming the reference index in a bullish market environment. The momentum factor made a negative contribution to the relative performance of the sub-fund. The value, quality and low risk factors made a positive contribution to the relative performance of the sub-fund. The risk profile of the sub-fund, as measured by volatility, was higher than that of the index.

Sustainability factors are integrated into the investment policy. The sustainability scores take into account environmental, social and governance (ESG) factors. The investment process is highly disciplined and ensures that the sub-fund's overall sustainability score is higher than or equal to the overall sustainability score of the benchmark. This means that a stock with a good ESG score is more likely to be included in the portfolio. Companies with a poor ESG score have less chance of being included in the portfolio. In addition, the environmental footprint of the portfolio, as measured by greenhouse gas emissions, is lower than or equal to that of the benchmark. This means that a stock with a low environmental footprint is more likely to be included in the portfolio. Companies with a poor environmental footprint have less chance of being included in the portfolio.

Robeco QI Global Developed Multi-Factor Equities

Over the reporting period, the sub-fund generated a return of 35.4% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World (net return in euros), outperforming the reference index in a bullish market environment. The low risk exposure made a negative contribution to the relative performance of the fund. The value, momentum and quality exposures made a positive contribution to the relative performance of the fund. The risk profile of the sub-fund, as measured by volatility, was higher than that of the index.

Sustainability factors are integrated into the investment policy. The sustainability scores take into account environmental, social and governance (ESG) factors. The investment process is highly disciplined and ensures that the sub-fund's overall sustainability score is higher than or equal to the overall sustainability score of the benchmark. This means that a stock with a good ESG score is more likely to be included in the portfolio. Companies with a poor ESG score have less chance of being included in the portfolio. In addition, the environmental footprint of the portfolio, as measured by greenhouse gas emissions, is lower than or equal to that of the benchmark. This means that a stock with a low environmental footprint is more likely to be included in the portfolio. Companies with a poor environmental footprint have less chance of being included in the portfolio.

Robeco QI Global Developed Conservative Equities ex Japan

Over the reporting period (until liquidation at 23 April 2021), the sub-fund generated a return of 13.8% (gross of fees in JPY) against a return of 15.9% for its reference index, the MSCI Kokusai Index (World Ex-Japan in JPY).

The principal objective of the sub-fund is to achieve a high Sharpe ratio (i.e. an optimal relationship between absolute return and absolute risk). Using a combination of factors (low risk, value and momentum), the model identifies broad groups of stocks that are likely to outperform on a risk-adjusted basis. The sub-fund underperformed its index in 2021. The low risk factor and momentum factor contributed negatively to relative performance. The value factor made a positive contribution to relative performance. The risk profile of the sub-fund, as measured by volatility, was lower than that of the index.

Performance analysis (continued)

Robeco QI Global Developed Conservative Equities ex Japan (continued)

Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI Emerging Markets Sustainable Active Equities

Over the reporting period, the sub-fund generated a return of 11.8% (gross of fees in euros) against a return of 4.9% for its reference index, the MSCI Emerging Markets Index (net return in euros).

The investment objective of the sub-fund is to outperform its index, the MSCI Emerging Markets Index, with the aid of a quantitative stock selection model. Using a combination of factors (value, quality, momentum and analyst revisions), the model identifies broad groups of stocks that are likely to outperform in the long run. The sub-fund's relative performance was positive. The value, momentum and analyst revisions factors made a positive contribution and the quality factor contributed negatively to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a medium level of active risk. Sustainability is integrated into the investment policy of the sub-fund. The sub-fund aims to achieve a 20% higher sustainability score and a 20% lower environmental footprint on three dimensions (carbon, water and waste) versus its index while excluding controversial companies.

Robeco QI Global Developed Conservative Equities

Over the reporting period, the sub-fund generated a return of 29.7% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (net return in euros).

The principal objective of the sub-fund is to achieve a high Sharpe ratio (i.e. an optimal relationship between absolute return and absolute risk). Using a combination of factors (low risk, value and momentum), the model identifies broad groups of stocks that are likely to outperform on a risk-adjusted basis. The sub-fund lagged the index in 2021. The low risk and momentum factors contributed negatively to relative performance. The value factor made a positive contribution to relative performance. The risk profile of the sub-fund, as measured by volatility, was lower than that of the index.

Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI Global Developed Active Equities

Over the reporting period, the sub-fund generated a return of 38.5% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (net return in euros).

The investment objective of the sub-fund is to outperform its index, the MSCI World Index, with the aid of a quantitative stock selection model. Using a combination of factors (value, quality, momentum and analyst revisions), the model identifies broad groups of stocks that are likely to outperform in the long run. The sub-fund's relative performance was positive. The value, quality, momentum and analyst revisions factors made a positive contribution to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a medium level of active risk. Sustainability is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI Customized Emerging Markets Enhanced Index Equities I

Over the reporting period, the sub-fund generated a return of -1.3% (gross of fees in US dollars) against a return of -2.5% for its reference index, the Composite, 80% MSCI World Index (Net Return) + 20% MSCI Emerging Markets (net return in US dollars).

The investment objective of the sub-fund is to outperform its index, the MSCI Emerging Markets Index, with the aid of a quantitative stock selection model. Using a combination of factors (value, quality, momentum and analyst revisions), the model identifies broad groups of stocks that are likely to outperform in the long run. The sub-fund's relative performance was positive. The value, momentum and analyst revisions factors contributed positively, while the quality factor contributed neutrally to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a low level of active risk. Sustainability is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI Global Quality Equities

Over the reporting period, the sub-fund generated a return of 33.0% (gross of fees in euros) against a return of 27.5% for its reference index, the MSCI All Countries World Index (net return in euros), outperforming the reference index in a bullish market environment. The value, momentum, quality and low risk factors contributed positively to the relative performance of the fund. The risk profile of the sub-fund, as measured by volatility, was higher than that of the index.

Sustainability factors are integrated into the investment policy. The sustainability scores take into account environmental, social and governance (ESG) factors. The investment process is highly disciplined and ensures that the sub-fund's overall sustainability score is higher than or equal to the overall sustainability score of the benchmark. This means that a stock with a good ESG score is more likely to be included in the portfolio. Companies with a poor ESG score have less chance of being included in the portfolio. In addition, the environmental footprint of the portfolio, as measured by greenhouse gas emissions, is lower than or equal to that of the benchmark. This means that a stock with a low environmental footprint is more likely to be included in the portfolio. Companies with a poor environmental footprint have less chance of being included in the portfolio.

Robeco QI Global Sustainable Conservative Equities

Over the reporting period, the sub-fund generated a return of 31.5% (gross of fees in euros) against a return of 27.5% for its reference index, the MSCI All Country World Index (net return in euros).

The principal objective of the sub-fund is to achieve a high Sharpe ratio (i.e. an optimal relationship between absolute return and absolute risk). Using a combination of factors (low risk, value and momentum), the model identifies broad groups of stocks that are likely to outperform on a risk-adjusted basis. The sub-fund outperformed its index in 2021. The low risk factor contributed negatively to relative performance. The value factor and momentum factor contributed positively to relative performance. The risk profile of the sub-fund, as measured by volatility, was lower than that of the index.

Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI Global Developed Enhanced Index Equities

Over the reporting period, the sub-fund generated a return of 34.2% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (net return in euros).

The investment objective of the sub-fund is to outperform its index, the MSCI World Index, with the aid of a quantitative stock selection model. Using a combination of factors (value, quality, momentum and analyst revisions), the model identifies broad groups of stocks that are likely to outperform in the long run. The sub-fund's relative performance was positive. The quality, momentum, value and analyst revision factors all contributed positively to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a low level of active risk. Sustainability is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco Sustainable Emerging Stars Equities

Over the reporting period, the sub-fund generated a return of 6.6% (gross of fees in euros) against a return of 4.9% for its reference index, the MSCI Emerging Markets Index (net return in euros). Key positive contributions to relative performance came from the underweight position in China and positive stock selection results in Brazil and South Korea. The largest portfolio change during 2021 was a sizable weight reduction in China owing to concerns about a further regulatory crackdown and a growth slowdown. Weight was added in South Korea, Brazil and Taiwan, while new positions were bought in Greece, Turkey and Vietnam. It excludes companies that score poorly on several dimensions of sustainability and selects more sustainable companies instead. As a consequence, the sub-fund has a significantly lower environmental impact than the MSCI Emerging Markets Index and significantly higher sustainability ratings. In addition, the sub-fund limits investments in companies with an elevated sustainability risk profile and we try to improve the sustainability profile of the companies we invest in through engagement.

Robeco QI Emerging Markets Sustainable Enhanced Index Equities

Over the reporting period, the sub-fund generated a return of 2.9% (gross of fees in US dollars) against a return of -2.5% for its reference index, the MSCI Emerging Markets Index (net return in US dollars).

Robeco QI Emerging Markets Sustainable Enhanced Index Equities (continued)

The investment objective of the sub-fund is to outperform its index, the MSCI Emerging Markets Index with the aid of a quantitative stock selection model. Using a combination of factors (value, quality, momentum and analyst revisions), the model identifies broad groups of stocks that are likely to outperform in the long run. The sub-fund's relative performance was positive. The value, momentum and analyst revisions factors contributed positively and the quality factor contributed neutrally to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a low level of active risk. Sustainability is integrated into the investment policy of the sub-fund. The sub-fund aims to achieve a 20% higher sustainability score and a 20% lower environmental footprint on three dimensions (carbon, water and waste) versus its index, while excluding controversial companies

RobecoSAM Global SDG Equities

Over the reporting period, the sub-fund generated a return of 26.6% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (total return in euros).

The sub-fund underperformed the MSCI World Index that served as its benchmark. The main reason for its underperformance was that the sub-fund has a significantly lower risk profile than the overall market, with a beta of around 0.8. Another reason for its underperformance is that the sub-fund had large underweight positions in energy stocks and in areas such as financials and information technology. The underperformance in energy names was due to the fact that there are no eligible names in the universe that have an acceptable SDG score. The underweight in Information Technology was due to the fact that the sector trades at a relatively high valuation of the sector relative to other sectors.

The sub-fund focuses on best-in-class companies that contribute to the Sustainable Development Goals as defined by the United Nations. We only select companies that have the highest scores according to our proprietary Sustainable Development Goals framework. The companies that are selected for this strategy contribute positively to one or more of the sustainable development goals, without doing significant harm to any of the other sustainable development goals, both in terms of social and environmental factors. All companies selected for the strategy exhibit good corporate governance.

RobecoSAM Global SDG Engagement Equities

Over the reporting period, the sub-fund generated a return of 3.7% (gross of fees in US dollars) against a return of 5.0% for its reference index, the MSCI All Country World Index (net return in US dollars). The sub-fund underperformed the MSCI World Index that served as its benchmark. The main reason for its underperformance was stock selection. Stock selection contributed negatively due to negative attribution in the financials, communication services, energy and materials sectors. Strong stock selection in the healthcare, information technology and industrials sectors helped to offset some of the effects. The sub-fund focuses on companies that can improve their contribution to the Sustainable Development Goals as defined by the United Nations. We aim to partner with companies we consider capable of improving their contribution to the UN Sustainable Development Goals, without doing significant harm to any of the other Sustainable Development Goals, both in terms of social and environmental factors. All companies selected for the strategy exhibit good corporate governance.

RobecoSAM QI Global SDG & Climate Beta Equities

Over the reporting period, the sub-fund generated a return of 2.2% (gross of fees in euros) against a return of 1.9% for its reference index, the MSCI All Country World Index (net return in euros). RobecoSAM QI Global SDG & Climate Beta Equities was launched during the reporting period in December 2021. The sub-fund has not completed a full month's performance and therefore we will not attribute this further. The investment objective of the sub-fund is to significantly improve the sustainability profile of the portfolio compared to its benchmark, the MSCI All Country World Index, while generating returns comparable to this index in the long run, with the aid of a quantitative stock selection model. The sub-fund aims to achieve a 10% better sustainability score, a 50% lower environmental footprint on carbon emissions, and a 20% lower environmental footprint on waste and water usage relative to the reference index. It excludes controversial companies and also does not invest in stocks which have a negative score in our proprietary UN SDG framework.

Performance analysis

Robeco Asia-Pacific Equities

Over the reporting period, the sub-fund generated a return of 16.7% (gross of fees in euros) against a return of 6.0% for its reference index, the MSCI AC Asia Pacific Index (net return in euros).

The sub-fund is managed under the motto 'Value with Momentum Awareness'. Excellent stock selection in Japan and China, low exposure to Chinese growth stocks and a tailwind from our value tilt were all factors contributing to an excellent result for the sub-fund in 2021 relative to the benchmark. Good returns were mostly drawn from the utilities, energy and consumer staples sector. Low weights in Taiwan and India detracted from the relative returns. Many Asian economies were held back due to 'near-zero-Covid-cases' policies and the many accompanying restrictions and lockdowns. Fears over a correction in semiconductor prices also dampened the mood, especially in South Korea. Asia Pacific earnings growth was a stellar 40%, driven by strong goods demand from overseas and good margins thanks to good cost controls. Nevertheless, the regional markets made little headway and stayed cheap.

The sub-fund has a long time horizon and low turnover. Sustainability factors often have a direct impact on valuation models. We started to engage extensively with Asia Pacific financial companies on climate transition in 2021. Companies have become increasingly aware of the risks, while regulators and governments have imposed additional reporting requirements on listed companies. The sub-fund limits investments in companies with an elevated sustainability risk profile.

Robeco Sustainable European Stars Equities

Over the reporting period, the sub-fund generated a return of 24.0% (gross of fees in euros) against a return of 25.1 % for its reference index, the MSCI Europe Index (total return in euros).

Selection effects contributed to its underperformance, while the effect from overweighting and/or underweighting of sectors was a small positive. Stock selection in the materials and real estate sector was positive, while information technology and consumer staples yielded the largest negative contributions. The position in Croda, a British specialty chemicals company, posted strong gains. A weak contribution came from the position in Knorr-Bremse, which fell in a rising market. Not being invested in two large benchmark holdings, ASML and LVMH, detracted materially from relative performance.

As the strategy seeks to improve the environmental footprint versus the benchmark, the sub-fund mainly invests in sectors, industries and subindustries where the intensity of environmentally harmful activities tends to be low. As per year-end, the sub-fund exhibited a substantially better environmental footprint compared to the benchmark. During the year, the sub-fund exited an investment.

Regional & Country Equity sub-funds (continued)

Performance analysis (continued)

Robeco QI European Conservative Equities

Over the reporting period, the sub-fund generated a return of 24.6% (gross of fees in euros) against a return of 25.1% for its reference index, the MSCI Europe Index (net return in euros).

The principal objective of the sub-fund is to achieve a high Sharpe ratio (i.e. an optimal relationship between absolute return and absolute risk). Using a combination of factors (low risk, value and momentum), the model identifies broad groups of stocks that are likely to outperform on a risk-adjusted basis. The sub-fund underperformed the index in 2021. The low risk factor contributed negatively to relative performance. The value and momentum factors contributed positively to relative performance. The risk profile of the sub-fund, as measured by volatility, was lower than that of the index.

Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI US Conservative Equities

Over the reporting period, the sub-fund generated a return of 24.4% (gross of fees in US dollars) against a return of 26.4% for its reference index, the MSCI North America Index (total return in US dollars).

The principal objective of the sub-fund is to achieve a high Sharpe ratio (i.e. an optimal relationship between absolute return and absolute risk). Using a combination of factors (low risk, value and momentum), the model identifies broad groups of stocks that are likely to outperform on a risk-adjusted basis. The sub-fund underperformed the index in 2021. The low risk factor contributed negatively to relative performance. The value and momentum factors contributed positively to relative performance. The risk profile of the sub-fund, as measured by volatility, was slightly higher than that of the index.

Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco BP US Premium Equities

Over the reporting period, the sub-fund generated a return of 25.6% (gross of fees in US dollars) against a return of 25.4% for its reference index, the Russell 3000 Value Index (total return in US dollars). The sub-fund performed in line with the benchmark for the year, with stock selection and sector allocation contributing to overall performance. Stock selection in communication services, consumer discretionary and energy added meaningfully, while sector allocation added to overall performance, helped by the sub-fund's underweight exposure to communications services, consumer staples and utilities and its overweight exposure to financials and energy. Having no exposure to real estate and overweight exposure to healthcare detracted. With respect to sustainability investing, we qualitatively capture a range of ESG issues, which directly and indirectly affect our decision-making during the course of our characteristics-based investment process.

Robeco Chinese Equities

Over the reporting period, the sub-fund generated a return of -10.0% (gross of fees in euros) against a return of -14.1% for its reference index, the MSCI China 10/40 Index (net return in euros). After a big correction in Q1 due to rising concerns about potentially accelerated Fed tapering, the market rebounded gradually in Q2. In Q3, the market corrected sharply due to concerns about the private sector as a result of China's further crackdown on the internet sector after the Didi IPO. In addition, concerns arose that China may be subject to systematic risk resulting from the property sector downfall led by Evergrande's potential default and the spill-over effect this could have. The Chinese Equities strategy outperformed its index. The focus on technology, innovation and industrial upgrade, in particular the renewable energy and electric vehicle (EV) supply chain, resulted in good performance, as we benefited from our positioning in the industry leaders. The underweight in financials worked well due to earnings pressure. Consumer stocks were the main detractors, as China's consumption was hindered by property worries and a zero-Covid policy. The sub-fund fully integrates ESG factors into its investment process. In addition, the sub-fund limits investments in companies with an elevated sustainability risk profile, which leads to a better Sustainability ESG risk score than the reference index.

Robeco Indian Equities

Over the reporting period, the sub-fund generated a return of 51.3% (gross of fees in euros) against a return of 35.8% for its reference index, the MSCI India Index (net return in euros).

Report of the Board of Directors (continued)

Regional & Country Equity sub-funds (continued)

Performance analysis (continued)

Robeco Indian Equities (continued)

Supported by easy monetary policies and strong domestic interest for stocks, the Indian equity market performed very well. The market was only temporarily held back by a sharp spike in Covid cases, but the situation normalized in the second half of the year and companies were able to book healthy earnings growth. Valuations for Indian equity also rose, anticipating further steady earnings growth as economic growth resumes. The sub-fund continued to focus on stocks with healthy fundamentals and trustworthy management teams. The sub-fund generated returns well above those of the market, with strong contributions coming from nearly all sectors, but especially from consumer discretionary, industrials, technology and financials. Our local team of analysts in India has contributed substantially to the strong track record. The relative risk in the sub-fund has been contained, ending the year with a beta just above one and a tracking error of 4.3%.

Sustainability factors often have a direct impact on valuation models. The energy transition is also a theme in India. Companies have become increasingly aware of the risks, while regulators and governments have imposed additional reporting requirements on listed companies. The sub-fund limits investments in companies with an elevated sustainability risk profile.

Robeco Asian Stars Equities

Over the reporting period, the sub-fund generated a return of 9.8% (gross of fees in US dollars) against a return of -4.7% for its reference index, the MSCI All Country Asia ex Japan Index (net return in US dollars).

The sub-fund continued to focus on value stocks with a healthy future, while keeping an eye on earnings and price momentum. The Asian markets were quite subdued for most of the year after the strong run in the second half of 2020. Many Asian economies were held back due to 'near-zero-Covid cases' policies, entailing substantial restrictions and lockdowns. Fears over a correction in semiconductor prices also dampened the mood, especially in South Korea. Notwithstanding this, the sub-fund realized healthy returns. Great stock picks in the Chinese market contributed the majority of the very strong relative returns. In sharp contrast to last year, the Asian markets started to pay attention to valuations again. The sub-fund benefited from its high conviction overweight in reasonably priced technology stocks, mostly in South Korea and Taiwan, but also in Vietnam and India. At the same time, the sub-fund was not hurt by the aggressive markdown of multiples for Chinese internet and e-commerce stocks on the back of government scrutiny into their monopolistic powers.

Sustainability is fully integrated into every investment case and valuation model. This way, through stock selection, the sub-fund is exposed to undervalued opportunities with upside from sustainability. The sub-fund limits investments in companies with an elevated sustainability risk profile. Climate transition is the key topic on which the sub-fund engaged with portfolio companies in 2021.

Robeco Sustainable Asian Stars Equities

Over the reporting period, the sub-fund generated a return of 2.3% (gross of fees in US dollars) against a return of -4.7% for its reference index, the MSCI All Country Asia ex Japan Index (net return in US dollars).

The sub-fund continued to invest in underappreciated and undiscovered beneficiaries of the Asian pivot towards a sustainable future. With more Asian countries at COP26 committed to a carbon-neutral deadline, reduction in deforestation and methane emissions, Asian sustainability leaders and enablers will continue to benefit. The fund's outperformance in 2021 was driven by companies that are technology enablers, renewable energy providers and active in financial inclusion and fintech. In terms of countries, good stock picks in the Chinese market contributed the majority of the relative returns. Next to that, stock picks from Singapore and Taiwan had a positive impact. In sharp contrast to last year, the Asian markets started to pay attention to valuations again. The sub-fund benefited from its high conviction overweight in reasonably priced technology stocks, mostly in South Korea and Taiwan, but also in India. At the same time, the sub-fund had little exposure to the Chinese internet and e-commerce stocks that underperformed strongly due to the stricter rules that the government applied to the monopolistic activities of these companies.

Sustainability is taken into account throughout the investment process and fully integrated into every investment case and valuation model. The sub-fund exhibits a better sustainability profile than the reference index which is illustrated by the lower environmental footprint with 75% lower GHG emissions (Scope 1 & 2), 32% less water use and 62% less waste generation. Climate transition is the key topic on which the sub-fund engaged with portfolio companies in 2021.

Report of the Board of Directors (continued)

Regional & Country Equity sub-funds (continued)

Performance analysis (continued)

Robeco BP US Large Cap Equities

Over the reporting period, the sub-fund generated a return of 29.7% (gross of fees in US dollars) against a return of 25.2% for its reference index, the Russell 1000 Value Index (total return in US dollars). The sub-fund outperformed the benchmark for the year, as markets continued to rise with the easing of Covid-19 pandemic restrictions and the further reopening of the economy. The sub-fund added significant value through a variety of sectors, through both stock selection and sector allocation. Stock selection was the primary driver of performance, highlighted by strong performance in the information technology and communications services sectors. Underweight consumer staples and communication services and overweight financials and energy added to sector allocation. With respect to sustainability investing, we qualitatively capture a range of ESG issues, which directly and indirectly affect our decision-making during the course of our characteristics-based investment process.

Robeco BP US Select Opportunities Equities

Over the reporting period, the sub-fund generated a return of 27.5% (gross of fees in US dollars) against a return of 28.3% for its reference index, the Russell Mid Cap Value Index (total return in US dollars). The sub-fund marginally underperformed the benchmark for the year, as markets continued to rise with the easing of Covid-19 pandemic restrictions and the further reopening of the economy. The sub-fund added value primarily through sector allocation, while stock selection detracted from overall performance. With all sectors posting positive returns for the year, overweight energy and underweight communication services and utilities drove the contribution to sector allocation. Stock selection was strongest in healthcare and real estate, and weakest in financials and materials. The sub-fund continues to find new investment opportunities across a wide variety of areas with wide valuation spread still present in the market. With respect to sustainability investing, we qualitatively capture a range of ESG issues, which directly and indirectly affect our decision-making during the course of our characteristics-based investment process.

Robeco QI Continental European Conservative Equities

Over the reporting period, the sub-fund generated a return of 16.1% (gross of fees in GB pounds) against a return of 16.7% for its reference index, the MSCI Europe ex-UK Index (net return in GB pounds).

The principal objective of the sub-fund is to achieve a high Sharpe ratio (i.e. an optimal relationship between absolute return and absolute risk). Using a combination of factors (low risk, value and momentum), the model identifies broad groups of stocks that are likely to outperform on a risk-adjusted basis. The sub-fund underperformed the index in 2021. The low-risk factor contributed negatively to relative performance. The value and momentum factors contributed positively to relative performance. The risk profile of the sub-fund, as measured by volatility, was lower than that of the index.

Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco Chinese A-share Equities

Over the reporting period, the sub-fund generated a return of 6.1% (gross of fees in euros) against a return of 11.1% for its reference index, the MSCI China A International Index (net returns in euros). After a big correction in Q1 due to rising concerns about potentially accelerated Fed tapering, the market rebounded gradually in Q2. In Q3, the market corrected sharply due to concerns about the private sector as a result of China's further crackdown on the internet sector after the Didi IPO. In addition, concerns rose that China may be subject to systematic risk as a result of the property sector downfall led by Evergrande's potential default and the spill-over effect this could have. The Chinese A shares Equities strategy underperformed its index. Consumer stocks were the main detractors, as China's consumption was hindered by property worries and a zero-Covid policy. The focus on themes such as technology and innovation, and industrial upgrade, in particular the renewable energy and EV supply chain, performed well, as we benefited from our positioning in the industry leaders. The sub-fund fully integrates ESG factors into its investment process. In addition, the sub-fund limits investments in companies with an elevated sustainability risk profile, which leads to a better Sustainability ESG risk score than the reference index.

Robeco QI Chinese A-share Active Equities

Over the reporting period, the sub-fund generated a return of 18.2% (gross of fees in euros) against a return of 11.1% for its reference index, the MSCI China A International Index (net returns in euros).

The investment objective of the sub-fund is to outperform its index, the MSCI China A International Index, with the aid of a quantitative stock selection model. Using a combination of factors (value, quality, momentum and analyst revisions), the model identifies broad groups of stocks that are likely to outperform in the long run. The sub-fund's relative performance was positive. The value, momentum and analyst revision factors contributed positively and the quality factor contributed neutrally to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a medium level of active risk. Sustainability is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI Chinese A-share Conservative Equities

Over the reporting period, the sub-fund generated a return of 18.7% (gross of fees in euros) against a return of 11.1% for its reference index, the MSCI China A International Index (net returns in euros).

The principal objective of the sub-fund is to achieve a high Sharpe ratio (i.e. an optimal relationship between absolute return and absolute risk). Using a combination of factors (low risk, value and momentum), the model identifies broad groups of stocks that are likely to outperform on a risk-adjusted basis. The sub-fund outperformed its index in 2021. The low risk, value and momentum factors contributed positively to relative performance. The risk profile of the sub-fund, as measured by volatility, was lower than that of the index.

Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI European Value Equities

Over the reporting period, the sub-fund generated a return of 31.6% (gross of fees in euros) against a return of 25.1% for its reference index, the MSCI Europe Index (net returns in euros).

The principal objective of the sub-fund is to achieve a high Sharpe ratio (i.e. an optimal relationship between absolute return and absolute risk). Using a combination of factors (low risk, value and momentum), the model identifies broad groups of stocks that are likely to outperform on a risk-adjusted basis. The sub-fund outperformed its index in 2021. The low risk, value and momentum factors contributed positively to relative performance. The risk profile of the sub-fund, as measured by volatility, was lower than that of the index.

Sustainability, based on ESG scores, is integrated into the investment policy of the sub-fund. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI US Enhanced Index Equities

Over the reporting period, the sub-fund generated a return of 29.9% (gross of fees in US dollars) against a return of 28.2% for its reference index, the S&P 500 Index (net return in US dollars).

The investment objective of the sub-fund is to outperform its index, the S&P 500 Index, with the aid of a quantitative stock selection model. Using a combination of factors (value, quality, momentum and analyst revisions), the model identifies broad groups of stocks that are likely to outperform in the long run. The sub-fund's relative performance was positive. The value, quality, momentum and analyst revisions factors contributed positively to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a low level of active risk. Sustainability is integrated into the investment policy. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Robeco QI European Enhanced Index Equities

Over the reporting period, the sub-fund generated a return of 27.7% (gross of fees in euros) against a return of 25.1% for its reference index, the MSCI Europe Index (net return in euros).

The investment objective of the sub-fund is to outperform its index, the MSCI Europe Index, with the aid of a quantitative stock selection model. Using a combination of factors (value, quality, momentum and analyst revisions) the model identifies broad groups of stocks that are likely to outperform in the long run. The sub-fund's relative performance was positive. The value, momentum and analyst revisions factors contributed positively and the quality factor contributed negatively to the sub-fund's relative performance. The volatility of the sub-fund was in line with the volatility of the index, with a low level of active risk. Sustainability is integrated into the investment policy. The portfolio construction process is highly disciplined and ensures that the overall sustainability score of the portfolio is better than or equal to the overall sustainability score of the index.

Performance analysis

Robeco New World Financials

Over the reporting period, the sub-fund generated a return of 26.2% (gross of fees in euros) against a return of 33.8% for the benchmark, the MSCI All Country Financials Index (net return in euros). The sub-fund underperformed the benchmark during the reporting period. After a great year in 2020, some of the highflying digital finance stocks - that greatly benefitted from the e-commerce boom during the pandemic - like PayPal and Block reached expensive valuation levels, and corrected sharply (30%+) during 4Q21. Although underlying fundamentals are still sound, and growth continues at very strong (15%+) levels, investors recalibrated what they were willing to pay for these franchise in light of higher global discount rates caused by the rising fear that the Federal Reserve will raise policy rates substantially. The digital finance trend posted its worst performance, followed by emerging and aging finance, despite European financials being free to return capital after the ECB lifted the dividend ban on 30 September. The sub-fund systematically integrates ESG factors into a disciplined investment process and excludes the 10% worst-scoring companies from an ESG risk perspective. More attention is also given to corporate governance and to the climate, while actively engaging with invested companies. The continuous digitization of the financial sector facilitates financial inclusion beyond what was already achieved in 2020. Great progress has been made in developed markets such as the US, where fintech's financially enable millions of underbanked Americans.

Robeco Sustainable Property Equities

Over the reporting period, the sub-fund generated a return of 36.9% (gross of fees in euros) against a return of 35.2% for its reference index, the S&P Developed Property Index (net return in euros). The sub-fund outperformed the benchmark driven by stock selection across all regions except for Asia. Performance was mainly driven by a significant contribution from stock selection within the prime retail and, to a lesser extent, the prime office trend portfolios. Fundamentals in the commercial real estate sector will be dependent on the re-opening of economies and the lasting impact that Covid-19 and related variants will have on corporate and consumer behavior. Performance dispersion was notable both in terms of subsector and regional performance. Residential and industrial REITs outperformed the broader market, while the US significantly outperformed the other regions. The pandemic accelerated structural trends that support fundamentals in the e-commerce logistics and datacenter sectors.

The sub-fund integrates ESG factors (RobecoSAM, Sustainalytics, GRESB) into its investment process and actively monitors and engages companies on GHG emissions. The sub-fund has an above-average ESG score and actively steers towards a carbon intensity below the benchmark average. In addition, the sub-fund limits investments in companies with an elevated sustainability risk profile.

Performance analysis (continued)

Robeco Global Consumer Trends

Over the reporting period, the sub-fund generated a return of 10.7% (gross of fees in euros) against a return of 27.5% for its reference index, the MSCI All Country World Index (net return in euros). The global markets delivered very strong returns during 2021 due to an easy monetary policy and a large amount of fiscal stimulus which started the economic recovery from the pandemic. Our strategy lagged the overall market for reasons including our overweight position in Chinese technology companies which were hurt by increased regulatory scrutiny. In addition, most of our best-performing holdings in 2020 gave back some of their stellar gains or lagged the overall market. Also, we were too early in adding pandemic winners to the portfolio even after they had underperformed in the earlier part of the year, as they continued to underperform in the following months as well.

Our strategy integrates ESG factors into its investment process by adhering to binding elements such as limited exposure to elevated risk investments, voting in line with Robeco's Proxy Voting Policy and complying with Robeco's exclusion policy. We also engaged with portfolio companies on the social impact of gaming and labor practices in a post-Covid world.

Robeco MegaTrends

Over the reporting period, the sub-fund generated a return of 21.7% (gross of fees in euros) against a return of 27.5% for its reference index, the MSCI All Country World Index (net return in euros). The gradual reopening, a recovering macro economy and strong earnings growth were a strong tailwind for equities. At the same time, this drove up inflation and central bankers started talking about an end to easy money. This led to a second growth-to-value rotation in the last two months of the year, after a similar move earlier at the start of the year, and several highly valued - tech - segments of the market witnessed severe corrections. In addition, China faced a very difficult year and closed down over 20% in local currency as regulatory concerns weighed heavily on sentiment. Of the four trends, Connected Enterprise and Healthy Aging clearly outpaced the index, while Digital World and especially Emerging Middle Class lagged substantially. Ashtead, Fortinet and Palo Alto Networks contributed most to performance, while Chegg, StoneCo and Alibaba detracted the most. In its fundamental analysis of and engagement with companies, the sub-fund focuses on corporate governance (including remuneration), social responsibility, the environment and transparency. As per the end of 2021 there were ongoing engagements with sixteen holdings.

Robeco Digital Innovations

Over the reporting period, the sub-fund generated a return of 34.3% (gross of fees in euros) against a return of 27.5% for its reference index, the MSCI All Country World Index (net return in euros). The sub-fund continued to benefit from the ongoing digital transformation of the enterprise, which is its overarching investment theme. During the reporting period, the sub-fund managers stuck to their strategy of gradually increasing the portfolio weight of software versus hardware-based businesses, as long-term economic value creation is concentrated in software-based companies. Performance was strong across the board, with all three trends contributing positively to performance. Secure Digital Infrastructure was the best-performing trend in 2021, followed by Digital Enablers and Robotics & Automation. Fortinet, Cap Gemini and Keysight Technologies were the top performance contributors, while Zoom Video Communications, Daifuku and Nabtesco detracted most from performance. With respect to sustainable investing, the sub-fund uses insights from both RobecoSAM and Sustainalytics in its investment process. The portfolio scores well above average on sustainability metrics: 83% lower carbon footprint, 23% lower Sustainalytics risk rating and 8% better overall ESG rating relative to the reference index. The position in Estun Automation was sold due to its severe ESG risk rating.

Robeco FinTech

Over the reporting period, the sub-fund generated a return of 13.4% (gross of fees in euros) against a return of 27.5% for its reference index, the MSCI All Country World Index (net return in euros). The sub-fund's performance was worse than the reference index during the reporting period. The 'Enablers' and 'Winners' categories contributed negatively to performance, while the 'Challengers' category made a positive contribution. On an industry level, consumer finance and banks contributed positively, while IT services was the biggest performance detractor. After a great year in 2020, some of the highflying FinTech stocks - that greatly benefitted from the e-commerce boom during the pandemic - like Shopify, PayPal, Mercado Libre and Block reached expensive valuation levels, and corrected sharply (30%+) during 4Q21. Although underlying fundamentals are still sound, and growth continues at very strong (15%+) levels, investors recalibrated what they were willing to pay for these franchise in light of higher global discount rates caused by the rising fear that the Federal Reserve will raise policy rates substantially. Software is eating the world and increasingly also the financial world. Therefore, the growth prospects for fintech remain promising, while the entry point from a valuation perspective looks attractive. The sub-fund systematically integrates ESG factors into a disciplined investment process, with more attention going to corporate governance and the climate while actively engaging with invested companies. The continuous digitization of the financial sector facilitates financial inclusion beyond what was already achieved in 2020. Great progress has been made in developed markets such as the US, where fintechs financially enable millions of underbanked Americans, and also in emerging markets.

RobecoSAM Circular Economy Equities

Over the reporting period, the sub-fund generated a return of 30.2% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (total return in euros).

Report of the Board of Directors (continued)

Theme Equity sub-funds (continued)

Performance analysis (continued)

RobecoSAM Circular Economy Equities (continued)

The sub-fund slightly lagged the broad global markets. In terms of clusters, Enabling Technologies performed best, closely followed by Redesign Inputs. The biggest individual positive contribution came from Zebra Technologies. The provider of mobile computing and printing devices benefited strongly from the digitalization of logistics and warehousing processes. Philips was amongst the worst-performing holdings, as it had to recall some products due to quality issues and consequently had to announce sizeable provisions to deal with this issue.

The sub-fund has the following sustainable investment objective: to finance solutions that support the transition from traditional production and consumption patterns toward a circular economy. The sustainable investment objective is attained by mainly investing in companies that advance the following United Nations Sustainable Development Goals (SDGs): Zero hunger (SDG 2), Good health and well-being (SDG 3), Decent work and economic growth (SDG 8), Industry, innovation and infrastructure (SDG 9), Sustainable cities and communities (SDG 11) and Responsible consumption and production (SDG 12).

RobecoSAM Smart Energy Equities

Over the reporting period, the sub-fund generated a return of 29.1% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (total return in euros). 2021 was another year of strong absolute performance. Performance lagged behind the global equity markets, but was strongly ahead of the investable universe. Particularly strong performance was observed in companies from the energy management cluster in semiconductor power management and storage. Negative contributions came only from the renewable energies segment. The power semiconductor company ON Semiconductor was the biggest single performance contributor, as it executed very well on their new strategy. The weakest contribution to return came from two companies in the energy-efficient transport segment: the fuel cell company Ballard Power and the public transport supplier Alstom. The sub-fund has the following sustainable investment objective: to further the transformation and decarbonization of the global energy sector. This sustainable investment objective is attained by mainly investing in companies that advance the following United Nations Sustainable Development Goals (SDGs): Affordable and clean energy goal (SDG 7), Decent work and economic growth (SDG 8), Industry, innovation and infrastructure (SDG 9), Sustainable cities and communities (SDG 11) and Climate action (SDG 13).

RobecoSAM Smart Materials Equities

Over the reporting period, the sub-fund generated a return of 26.6% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (total return in euros).

The sub-fund outperformed the materials sector in 2021, but slightly underperformed its benchmark. The advanced materials cluster reported a total return of more than 39%. This was predominantly driven by companies such as Sika, TopBuild and Saint Gobain that showed stronger-than-expected recovery in volumes and margin management. The single best contributor overall was Onto Innovation (Smart Manufacturing cluster), posting a sequence of beat-and-raise quarters on the back of significant new capacity investments by semiconductor manufacturers and increasing semiconductor complexity.

The sub-fund has the following sustainable investment objective: to help mitigate the resource scarcity challenge within industries, while supporting economic growth. This sustainable investment objective is attained by mainly investing in companies that advance the following United Nations Sustainable Development Goals (SDGs): Decent work and economic growth (SDG 8), Industry, innovation and infrastructure (SDG 9), Sustainable cities and communities (SDG 11), Responsible consumption and production (SDG 12) and Climate action (SDG 13).

RobecoSAM Smart Mobility Equities

Over the reporting period, the sub-fund generated a return of 21.0% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (total return in euros).

Nevertheless, the Smart Mobility theme continued to be attractive, as the electrification of the automotive industry maintained momentum. In the EV Component Supplier cluster the strength of the EV market translated into a markedly positive performance contribution from the Batteries sub-cluster. Albemarle, a leading integrated battery-grade lithium producer, benefited from the sizable increase in the lithium spot prices in China. Another strong individual contributor was ON Semiconductor, following the new CEO's strategy execution. Among performance detractors was the electric delivery van manufacturer Workhorse – the company faced issues ramping up production and was removed from the sub-fund.

The sub-fund has the following sustainable investment objective: to support the transformation and decarbonization of the global transportation sector. The sustainable investment objective is attained by mainly investing in companies that advance the following United Nations Sustainable Development Goals (SDGs): Affordable and clean energy goal (SDG 7), Decent work and economic growth (SDG 8), Industry, innovation and infrastructure (SDG 9), Sustainable cities and communities (SDG 11) and Climate action (SDG 13).

Report of the Board of Directors (continued)

Theme Equity sub-funds (continued)

Performance analysis (continued)

RobecoSAM Sustainable Healthy Living Equities

Over the reporting period, the sub-fund generated a return of 24.5% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (total return in euros).

The sub-fund lagged the broad global markets that were driven by the energy, information technology and finance sectors – all largely non-aligned with the theme. The Lifestyle Disease Solutions and Healthy Nutrition clusters performed best. Revenue from products involved in addressing the pandemic, such as diagnostic tests and therapeutics, stayed at very high levels throughout the year, benefiting our holdings in analytics and diagnostics stocks. The former also saw solid demand for equipment and instruments required in biopharmaceutical manufacturing and the build-out of healthcare infrastructure. However, medical technology and healthcare services companies were still negatively affected by the reduction of elective procedures.

The sub-fund has the following sustainable investment objective: to promote good health and well-being and contribute to an efficient healthcare system. This sustainable investment objective is attained by mainly investing in companies that advance the following United Nations Sustainable Development Goals (SDGs): Zero hunger (SDG 2), Good health and well-being (SDG 3) and Clean water and sanitation (SDG 6).

RobecoSAM Sustainable Water Equities

Over the reporting period, the sub-fund generated a return of 40.9% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (total return in euros).

In 2021, all four water investment clusters showed positive returns. The best performance came from the cluster Capital Goods and Chemicals, which benefited from the economic rebound. The attractive economic environment also benefited companies in the more cyclical cluster Building & Materials. Suppliers of analytical tools and equipment also posted another strong year, helping the Quality and Analytics cluster to achieve a year of outperformance. As a result, we used price increases as an opportunity to take profits in Waters company, ultimately selling the position in Q3.

The sub-fund has the following sustainable investment objective: to help mitigate the global challenges related to scarcity, quality, and allocation of water. This sustainable investment objective is attained by mainly investing in companies that advance the following United Nations Sustainable Development Goals (SDGs): Good health and well-being (SDG 3), Clean water and sanitation (SDG 6), Industry, innovation and infrastructure (SDG 9), Sustainable cities and communities (SDG 11), Responsible consumption and production (SDG 12) and Life below water (SDG 14).

RobecoSAM Global Gender Equality Equities

Over the reporting period, the sub-fund generated a return of 33.8% (gross of fees in euros) against a return of 31.1% for its reference index, the MSCI World Index (total return in euros).

The sub-fund outperformed the MSCI World Index that served as its benchmark. The main reason for the outperformance was strong stock selection in most sectors. Stock selection contributed positively due to strong results from stock selection in the healthcare, information technology, financials, consumer and materials sectors, while we had a slight detraction from stock selection in the energy and communication services sectors.

The sub-fund focuses on best-in-class companies that have a good gender equality score and that contribute to the Sustainable Development goals as defined by the United Nations. We only select companies that have the highest scores according to our proprietary gender equality scores. The companies that are selected for this strategy contribute positively to one or more of the sustainable development goals, without doing significant harm to any of the other sustainable development goals, both in terms of social and environmental factors. All companies selected for the strategy exhibit good corporate governance.

Robeco Next Digital Billion

Over the reporting period, the sub-fund generated a return of -19.7% (gross of fees in US dollars) against a return of -4.4% for its reference index, the MSCI Emerging Markets Index (net return in US dollars). The sub-fund was launched in September 2021 and underperformed the reference index as we have seen a sharp pullback in stock prices for high growth companies partly explained by rising rates in many emerging markets. Many of the companies in portfolio reported strong results despite a volatile macroeconomic environment, and the underlying Next Digital Billion trend is firmly in place. Within the sub-fund's high conviction approach, enterprise-focused businesses performed strongly during the period, while other segments of the portfolio such as fintech and online consumer and media companies had a negative effect on our performance.

Report of the Board of Directors (continued)

Theme Equity sub-funds (continued)

Performance analysis (continued)

Robeco Next Digital Billion (continued)

We include ESG factors in the analysis of our investments, and we plan to actively engage with companies in which we invest. The portfolio has a better Sustainalytics score compared to the reference index and limits investments in companies with an elevated sustainability risk profile. Many of the businesses we invest in are mission driven, facilitating individuals and businesses to have access to useful and affordable products and services that meet their needs.

Performance analysis

Robeco High Yield Bonds

Over the reporting period, the sub-fund generated a return of 3.6% (gross of fees hedged into euros) against a return of 4.2% for its reference index, the Bloomberg US Corp. HY & Pan Eur. HY. ex Fin. 2.5% Issuer Cap Index (hedged into euros). 2021 was a strong year for credit, with hardly any defaults and total returns ranging from 2.5% in European BB to 8.5% in US CCC, a mix of strongly positive credit excess returns counterbalanced by an underlying move up in rates. With the sub-fund's up-in-quality positioning and a beta below one, the sub-fund lagged the broader index. The preference for European credit over US credit was also a detractor. Bottom-up issuer selection on the other hand was a clear positive, adding close to 50 bps for the year. With respect to sustainable investing, the sub-fund integrates ESG factors into the investment process. The prime goal of integrating ESG factors into the analysis is to strengthen the ability to assess the downside risk of the credit investments. RobecoSAM sustainability data and external sources are used to make an ESG assessment as part of the fundamental analysis.

Report of the Board of Directors (continued)

Global Bond sub-funds (continued)

Performance analysis (continued)

RobecoSAM Emerging SDG Credits

Over the reporting period, the sub-fund generated a return of 1.5% (gross of fees in US dollars) against a return of 0.5% for its reference index, the JPM Corporate EMBI Broad Diversified Index (in US dollars).

The tightening of credit spreads contributed positively to the portfolio's performance. However, the underlying government bond yields rose significantly, contributing negatively to total return. The outperformance of the sub-fund versus the index was driven by issuer selection. The sub-fund started the year with a credit beta of circa 1.1, but during the first half the beta was reduced to around 0.9. Valuation and a weakening outlook in China were the key drivers to reduce the beta overweight. The sub-fund had positions in sectors recovering from Covid-19, such as paper, steel and cement, which outperformed the market. An overweight in consumer cyclical and utilities also had a positive impact on performance, while energy and transportation, which score negatively on SDGs, subtracted from performance. Positions in certain sovereign bonds of emerging countries also detracted from performance. ESG factors are taken into account.

Robeco Global Credits

Over the reporting period, the sub-fund generated a return of -1.1% (gross of fees hedged into euros) against a return of 0.6% for its reference index, the Bloomberg Global Aggregate – Corporates Index (hedged into euros).

The tightening of credit spreads contributed positively to the portfolio's performance. However, the underlying government bond yields rose significantly, contributing negatively to total return. The outperformance of the sub-fund versus the index was driven by issuer selection. The sub-fund started the year with a credit beta of circa 0.95, but during the first half the beta was further reduced to around 0.85. Valuation was the key driver to reduce the beta overweight. Beta positioning had a negative impact on performance. The sub-fund had positions in sectors recovering from Covid-19, such as energy, hotels and cruise lines, which outperformed the market. An overweight in bank Tier 2 and Tier 1 also had a positive impact on performance, while insurance and technology subtracted from performance. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers; the exposure to green bonds is circa 2%.

Robeco QI Dynamic High Yield

Over the reporting period, the sub-fund generated a return of 3.9% (gross of fees hedged into euros) against a return of 2.8% for its reference index, the Bloomberg Global High Yield Corporate (hedged into euros). The sub-fund provides liquid exposure to high yield through credit default swap (CDS) indices on top of a portfolio of government bonds. The position in CDS indices is based on a quantitative model: the position is increased to 150% when the model is positive and conversely reduced to 50% when negative. The sub-fund held an overweight position from January to July, which was the main contributor to performance, as high yield spreads continued to grind tighter in the first half of the year. In July, a new region allocation signal was added, initially overweighting Europe and underweighting the US. The outperformance is explained by a positive contribution from the model-based active positions and a small negative contribution from CDS indices lagging high yield bonds. In the long run we do not expect structural return differences between CDS indices and bonds. Given the type of instruments used to implement the investment strategy, ESG integration does not play a role in the investment strategy.

Robeco QI Global Multi-Factor Credits

Over the reporting period, the sub-fund generated a return of -0.8% (gross of fees hedged into euros) against a return of -1.7% for its reference index, the Bloomberg Global Aggregate - Corporates Index (hedged into euros). Relative performance was mainly driven by positive issue(r) selection, as beta allocation contributed negligibly. The value factor contributed most positively to performance, followed by the size factor. The momentum factor contributed somewhat positively. The low risk/quality factor detracted, mostly driven by the underperformance of defensive stocks. Sector allocation made a positive contribution, especially due to the overweights in the consumer cyclical and energy sectors and despite the underweight in REITs and the overweight in technology names. Allocations to currency denominations detracted somewhat, due to the underweight in JPY bonds and the overweight in US dollar bonds. Country allocation detracted too, with negative effects from the underweight in Japan and the overweight in the US. Rating allocation within investment grade made a small positive contribution, while the off-benchmark position in BBs made a nice positive contribution.

This sub-fund offers balanced exposure to the value, momentum, low risk, quality and size factors in the global investment grade corporate bond market by using a highly systematic investment process. Analysts perform a fundamental check on additional downside risks beyond the scope of the quantitative multi-factor model, including ESG risks, using RobecoSAM sustainability data and other sources. The portfolio construction aims to make the portfolio's RobecoSAM ESG score better than the benchmark and the portfolio's carbon emission, water consumption and waste disposal footprints lower than the benchmark.

Report of the Board of Directors (continued)

Global Bond sub-funds (continued)

Performance analysis (continued)

Robeco QI Global Multi Factor Bonds

Over the reporting period, the sub-fund generated a return of -2.5% (gross of fees hedged into euros) against a return of -2.2% for its reference index, the Bloomberg Global Aggregate Index (hedged into euros). This sub-fund offers balanced exposure to the value, momentum, low risk, quality and size factors. The bottom-up selection of bonds aims to systematically harvest factor premiums with a risk profile similar to the index and with the weighted average ESG scores and CO2 emissions of the government bonds and the credits in portfolio better than in the index. The sub-fund incorporates an active duration overlay, which is fully driven by the outcomes of our quantitative duration model.

The tracking error over the past two years (annualized) is 0.98%, in line with its target of 1%. The systematic duration overlay and the factor-based credit selection contributed positively to performance. The duration overlay earned from rising yields at the start of the year. In credits, the value factor was very strong, followed by the size and momentum factors. Only the low risk/quality factors performed negatively within the credit selection. The factor-based government bond selection detracted from performance. The momentum factor detracted most, followed by value and low risk.

Robeco Global Credit - Short Maturity

Over the reporting period, the sub-fund generated a return of -0.8% (gross of fees hedged into euros) against a return of -0.9% for its reference index, the Bloomberg Global Aggregate Corporate 1-5 yr Index (hedged into euros).

Tightening credit spreads contributed positively to the portfolio's performance. However, the underlying government bond yields rose significantly, contributing negatively to total return. The outperformance of the sub-fund versus the index was driven by issuer selection. The sub-fund started the year with a credit beta of circa 1.1, but during the first half the beta was reduced to around 1. Valuation was the key driver to reducing the beta overweight. The sub-fund had positions in sectors recovering from Covid-19, such as hotels and cruise lines, which outperformed the market. An overweight in basic industry in emerging markets also had a positive impact on performance, while an underweight in transportation and REITs subtracted. Overall volatility was very low during the year. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers; the exposure to green bonds is circa 2.5%.

Robeco Corporate Hybrid Bonds

Over the reporting period, the sub-fund generated a return of 1.2% (gross of fees hedged into euros) against a return of 1.8% for its reference index, the Bloomberg Global Corporate Hybrids 3% Issuer Cap Index (hedged into euros). The increase in underlying government bond yields contributed negatively to total return. The impact was, however, more than offset by the high credit spreads on corporate hybrids and by the fact that spreads had moved tighter during the year. The return contribution of the top-down beta positioning was slightly negative. The credit beta of the portfolio was below one, while corporate hybrids outperformed Treasuries last year. The positioning of the portfolio remains defensive, as credit spreads are close to their multi-year lows.

Issuer selection made a large negative contribution to the portfolio's performance. The holding in TransCanada Energy Corp underperformed the global hybrid market. Despite the stable nature of its gas pipeline business, the bonds were quite sensitive to Covid-19 risk flaring up during the year. Holdings in Enel SpA hybrids also made a negative contribution. This was mainly driven by timing, as the position was increased during the year, but the bonds traded down in the last quarter. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers.

Robeco QI Global Multi-Factor High Yield

Over the reporting period, the sub-fund generated a return of 5.3% (gross of fees in euros) against a return of 3.9% for its reference index, the Bloomberg Global High Yield Corporates ex Financials Index (hedged into euros). Relative performance was mainly driven by positive issue(r) selection. Beta allocation detracted because the beta hedge, implemented with CDS indices, failed to contribute positively enough to offset the negative contribution from the underweight beta position in the bond portfolio. The value factor made the most positive contribution, followed by the momentum and low risk/quality factors. The size factor detracted somewhat. Sector allocation contributed fairly positively, due to the underweights in electric utilities and communication companies and despite the overweight in the energy sector. Country allocation contributed positively too, driven by a large positive contribution from the underweight in emerging market issuers and despite a negative effect from the underweight in the US. Allocations to currency denominations detracted, mostly due to the underweight in US dollar bonds. Rating allocation detracted as well, in particular due to the underweight in the outperforming CCC rating category.

This sub-fund offers balanced exposure to the value, momentum, low risk, quality and size factors in the global high yield corporate bond market by using a highly systematic investment process. Analysts perform a fundamental check on additional downside risks beyond the scope of the quantitative multi-factor model, including ESG risks, using RobecoSAM sustainability data and other sources. The aim of the portfolio construction is to ensure that the portfolio's RobecoSAM ESG score is better than the benchmark and that the portfolio's carbon emission, water consumption and waste disposal footprints are lower than that of the benchmark.

Report of the Board of Directors (continued)

Global Bond sub-funds (continued)

Performance analysis (continued)

RobecoSAM SDG Credit Income

Over the reporting period, the sub-fund generated a return of 1.3% (gross of fees hedged into US dollars). The sub-fund is managed on a total return basis and not versus an index. In the second quarter of 2021, the risk profile of the portfolio was reduced, as a more cautious outlook on the market was taken. This position was maintained for the remainder of 2021. Spreads were judged not always to compensate for potential risks. The portfolio still benefited from the position in subordinated financials; these trade at attractive valuations for the fundamental credit quality. In the second half of the year, the duration of the portfolio was reduced in anticipation of an expected increase in yields. This decision helped to limit the negative return contribution from the yield increase in the second half of the year. The sub-fund focuses on issuers that contribute positively to the UN Sustainable Development Goals. This means that companies that contribute negatively to one or more SDGs, such as brewing companies or oil companies, are excluded from the portfolio. All portfolio companies have good governance practices.

RobecoSAM Global SDG Credits

Over the reporting period, the sub-fund generated a return of -1.7% (gross of fees hedged into euros) against a return of 0.0% for its reference index, the Bloomberg Global Aggregate Corporates Index (hedged into euros).

The tightening of credit spreads contributed positively to the portfolio's performance. However, the underlying government bond yields rose significantly, contributing negatively to total return. The underperformance of the sub-fund versus the index was driven by the top-down positioning and by issuer selection. The sub-fund started the year with a credit beta of circa 0.95, but during the first half the beta was further reduced to around 0.85. Valuation was the key driver to reduce the beta overweight. Beta positioning had a negative impact on performance. Issuer selection was insufficient to compensate, as market volatility was very low. Overweights in banks and insurance perpetuums had a positive impact on performance. The sub-fund had no positions in sectors such as energy and other sectors with a negative SDG rating which outperformed the market in 2021. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers; exposure to green bonds has grown to circa 6%.

RobecoSAM SDG High Yield Bonds

Over the reporting period, the sub-fund generated a return of 2.1% (gross of fees hedged into euros) against a return of 2.8% for its reference index, the Bloomberg Global High Yield Corporate Index (hedged into euros). 2021 was a strong year for credit, with hardly any defaults and total returns ranging from 2.5% in European BB to 8.5% in US CCC, a mix of strongly positive credit excess returns counterbalanced by an underlying move up in rates. With the sub-fund's up-in-quality positioning and a beta below one, the sub-fund lagged the broader index. In relative terms versus the index, the sub-fund also lost on the underweight in energy bonds, which are excluded based on the SDG framework. This was counterbalanced by strong issuer selection elsewhere, notably the avoidance of the deeply troubled Chinese property sector. With respect to sustainable investing in the investment process, the sub-fund focuses on issuers that contribute positively to the UN Sustainable Development Goals. This means that companies that contribute negatively to one or more SDG such as tobacco companies, certain mining companies and coal-powered utilities, are excluded from the portfolio.

RobecoSAM Global Green Bonds

Over the reporting period, the sub-fund generated a return of -2.4% (gross of fees hedged into euros) against a return of -3.1% for its reference index, the Bloomberg MSCI Global Green Bond Index (hedged into euros). The sub-fund outperformed its index by +0.65%. The total return over 2021 was affected by rising yields, as economies recovered from the Covid pandemic and inflation rose. The sub-fund was correctly positioned for front end rates to rise both in the US and in the Eurozone. The sub-fund pursued a defensive credit policy with credit beta reduced to below benchmark level. The sub-fund actively participated in new green issues, including the inaugural green bonds from Italy and the EU, and in several new corporate issues. Recent green bonds added to the portfolio led to a significant increase in the share of renewable energy projects. Before adding green bonds, alignment with the green bond principles is checked and the use of proceeds in relation to the EU taxonomy on green projects and activities reviewed. At the end of December, fund investments in green bonds amounted to about 98%.

Global Bond sub-funds (continued)

Performance analysis (continued)

RobecoSAM Climate Global Credits

Over the reporting period, the sub-fund generated a return of -1.6% (gross of fees hedged into euros) against a return of -1.9% for its reference index, the Solactive Paris Aligned Global Corporate Index (hedged into euros) 1. January and February performance was measured against the Bloomberg Global Aggregate Corporate Index.

The tightening of credit spreads contributed positively to the portfolio's performance. However, the underlying government bond yields rose significantly, contributing negatively to total return. The outperformance of the sub-fund versus the index was driven by issuer selection. The sub-fund started the year with a credit beta of circa 0.95, but during the first half the beta was further reduced to around 0.85. Valuation was the key driver to reduce the beta overweight. Beta had a negative impact on performance. The sub-fund had positions in banks and basic industry, which outperformed the market, while the positioning in insurance and transportation subtracted from performance. The fund's carbon footprint is well below that of the Paris Aligned Index. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers; exposure to green bonds is circa 4.3%.

RobecoSAM Climate Global Bonds

Over the reporting period, the sub-fund generated a return of -1.3% (gross of fees hedged into euros) against return of -2.3% for its reference index, the Solactive Paris Aware Global Aggregate Index (hedged into euros) ¹. The main drivers of outperformance were duration and yield curve positioning through the year as well as the underweight in EM risk. Given the global reopening of the economy and inflationary pressures driving interest rates higher as the pandemic eased, we expressed underweight duration positions via 5-year bonds and/or curve steepeners between 2-year and 5-year bonds in various markets, given the view that the global reopening of the economy and inflationary pressures would drive interest rates higher as the pandemic eased. We were selectively underweight duration for high polluters such as Germany and Japan, whilst being overweight countries such as Denmark and Finland.

The sub-fund achieved its sustainable investment objective by having a lower (better) carbon intensity, not only with regard to the broad market index but also the reference sustainability benchmark. Furthermore, the sub-fund met its carbon reduction target by having less exposure to the worst-performing polluting countries and corporates, whilst being overweight outperforming issuers based on their carbon intensities.

¹ The reference index changed from the Bloomberg Global Aggregate Index (hedged into euros) in March 2021; the change is reflected in the performance of the index.

Performance analysis

Robeco Euro Government Bonds

Over the reporting period, the sub-fund generated a return of -3.1% (gross of fees in euros) against a return of -3.5% for its reference index, the Bloomberg Euro-Aggregate Treasury Index (in euros). The negative return was driven by the overall rise in government bond yields. The sub-fund had a relative return of +0.4% versus the benchmark over the period. Country allocation, duration management and yield-curve positioning all contributed positively to performance. The sub-fund was correctly positioned for higher rates and a steeper curve in the Eurozone. At the start of the year, the sub-fund was correctly positioned for Italian BTPs to outperform, whilst in the second half the sub-fund benefited from the underweight in Italy. In addition, an allocation to inflation-indexed bonds contributed as inflation expectations rose. Allocation to government-related bonds subtracted as swap spreads widened. The sub-fund actively participated in sustainable bond issuance. Among other things, the sub-fund participated in the inaugural green bond from the EU. At the end of December, 18% of the sub-fund was invested in green, social and sustainable bonds.

Robeco Euro Credit Bonds

Over the reporting period, the sub-fund generated a return of -0.3% (gross of fees in euros), against a return of -1.0% for its reference index the Bloomberg Euro Aggregate Corporates Index (hedged into euros). The negative return of the portfolio was driven by an increase in the underlying government bond yields. This negative impact of higher yields was only partially offset by a tightening of credit spreads. The performance contribution of the top-down positioning was negative, as the credit beta of the portfolio was below one. The positioning of the portfolio is still fairly cautious, as credit spreads are close to their multi-year lows. Issuer selection made a positive contribution to performance. The portfolio benefited from holdings in issuers that were still recovering from the Covid-19 lockdowns; examples are hotels, cruise lines and auto stocks. Holdings in some rising stars such as Kraft Heinz and Syngenta also paid off. The portfolio hedge via credit derivatives contributed negatively to performance. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers.

Robeco All Strategy Euro Bonds

Over the reporting period, the sub-fund generated a return of -2.5% (gross of fees in euros) against a return of -2.9% for its reference index, the Bloomberg Euro-Aggregate Index (in euros). This negative performance was driven by the overall rise in government bond yields. Duration management, yield curve positioning and credit selection all contributed positively to performance, while currencies and credit allocation subtracted. The sub-fund was correctly positioned for higher rates, both in Europe and the US, and for a steeper curve in Europe versus a flatter curve in the US due to diverging central bank policies. The regional focus in corporate bonds slightly subtracted from returns, as European corporates underperformed, especially in the final two months of the year. The allocation to government-related bonds subtracted from performance, as these bonds were dragged along with widening swap spreads. At the end of the year, 16% of the sub-fund was invested in green, social and sustainable bonds.

Report of the Board of Directors (continued)

Regional Bond sub-funds (continued)

Performance analysis (continued)

Robeco European High Yield Bonds

Over the reporting period, the sub-fund generated a return of 3.1% (gross of fees hedged into euros) against a return of 3.5% for its reference index, the Bloomberg Pan-Eur. HY Corp. ex Fin. 2.5% Issuer Cap Index (hedged into euros). As a result of sustained monetary and fiscal support and a negative rates environment, investors continued to search for yield. Spreads tightened some 40 bps over the full year and the 2021 default rate was record low. The sub-fund's underweight in market risk and related up-in-quality positioning therefore contributed negatively to relative performance. Issuer selection contributed positively, with the most notable contribution coming from avoiding some larger losers in the European telecom space, where competitive pressures were high and investment requirements substantial, leaving some more indebted issuers in trouble. With respect to sustainable investing, the sub-fund integrates ESG factors into the investment process. The prime goal of integrating ESG factors into the analysis is to strengthen the ability to assess the downside risk of the credit investments. RobecoSAM sustainability data and external sources are used to make an ESG assessment as part of the fundamental analysis.

RobecoSAM Euro SDG Credits

Over the reporting period, the sub-fund generated a return of -0.7% (gross of fees in euros) against a return of -1.0% for its reference index, the Bloomberg Euro-Aggregate: Corporates Index (in euros). The negative return of the portfolio was driven by an increase in the underlying government bond yields. This negative impact of higher yields was only partially offset by a tightening of credit spreads. The performance contribution of the top-down positioning was negative, as the credit beta of the portfolio was below one. The positioning of the portfolio was still fairly cautious, as credit spreads were close to their multi-year lows. Issuer selection made a positive contribution to performance. In the investment process, the sub-fund focuses on issuers that contribute positively to the UN Sustainable Development Goals. This means that companies that contribute negatively to one or more SDGs are excluded from the portfolio. Green bonds are a growing part of the investment universe as new issuance of green bonds continues to grow. The sub-fund has an exposure of circa 13% to this category of bonds.

Robeco Financial Institutions Bonds

Over the reporting period, the sub-fund generated a return of 1.4% (gross of fees in euros) against a return of 0.6% for its reference index, the Bloomberg Euro Aggregate Corporate Financials Subordinated 2% Issuer Cap Index (hedged into euros). The positive return of the portfolio was driven by the tightening of credit spreads. The underlying government bond yields rose, which contributed negatively to the return of the portfolio. The outperformance of the sub-fund versus the index was driven by the top-down positioning and by issuer selection. The sub-fund started the year with a credit beta of circa 1.15, but during the month of January the fund's market sensitivity was reduced to 1.05. Valuation was the key driver to reduce the beta overweight; the fairly neutral market positioning was kept throughout the year. This means that issuer selection contributed most to relative performance in 2021. Overweights in bank CoCos and insurance perpetuals had a positive impact on performance; the underweight in the real estate sector contributed negatively. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers; the exposure to green bonds has grown to circa 5%.

Robeco Investment Grade Corporate Bonds

Over the reporting period, the sub-fund generated a return of -0.8% (gross of fees in euros) against a return of -1.2% for its reference index, the Bloomberg Euro-Aggregate: Corporates Ex Financials 2% Issuer Constraint Index (in euros). The negative total return was driven by an increase in underlying government bond yields. The return contribution of the top-down beta positioning was slightly negative. The credit beta of the portfolio was below one, while credit outperformed Treasuries last year. The positioning of the portfolio remains defensive as credit spreads are close to their multi-year lows. Issuer selection made a large positive contribution to the portfolio's performance. The portfolio benefited from holdings in issuers that were still recovering from the Covid-19 lockdowns; examples are the hotels and automotive companies. Holdings in some rising stars such as Kraft Heinz and Syngenta also paid off. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers.

RobecoSAM US Green Bonds

Over the reporting period, the sub-fund generated a return of -1.2% (gross of fees in US dollars) against a return of -1.3% for its reference index, the Bloomberg MSCI USD Green Bond Index (in US dollars). The sub-fund provides diversified exposure to the US green bonds market. The proceeds of green bonds are employed to finance projects with a positive environmental impact. A proprietary screening process is applied to determine the eligibility of a green bond for the fund, mitigating the risk of 'green washing'. The negative return was driven by the overall rise in government bond yields as inflation rose, economies reopened and central banks announced their intention to withdraw stimulus. The positive excess return of the sub-fund was driven mainly by duration, as we kept the duration of the sub-fund below the index level. The sub-fund had below-market credit risk, as valuations were seen as expensive. This defensive position contributed positively to relative performance, as the credit markets weakened somewhat in the fourth quarter. The US dollar green bond market continued to grow fast, led by US corporates. In addition to green bonds, the issuance of US dollar social, sustainability and sustainability-linked bonds also showed strong growth. When assessing the fundamental credit quality of individual issuers, ESG factors are taken into account. A proprietary screening process is applied to determine the eligibility of a green bond for the fund.

Performance analysis

Robeco QI Multi Factor Absolute Return

Over the reporting period, the sub-fund generated a return of -4.9% (gross of fees in euros) against a return of -0.6% for its reference index, the ICE BofA ESTR Overnight Rate Index (in euros).

The sub-fund harvests factor premiums through bottom-up credit and equity selection and, at the market level, through top-down factor-based allocation. The sub-fund targets a low correlation with equity and bond markets and market agnostic returns.

Momentum and low risk added positively to performance. Value and flow were the main detractors, followed by quality and carry. Equity selection, credit allocation and commodity allocation were positive contributors. Credit selection contributed neutrally, while equity allocation, government bond allocation and currency allocation detracted.

Environmental footprint and environment, social and governance (ESG) factors are systematically integrated. The equity sleeves are focus, realizing -30% carbon, -20% water/waste and ESG +10% based on Sustainalytics versus the equity benchmark. In addition, equities with SDG scores -3 and -2 are excluded. The credit sleeve incorporates the regular ESG and impact considerations (better ESG than the benchmark and lower carbon/water/waste than the benchmark). The average ESG scores and environmental impact of the sleeves are significantly better than those of their respective benchmarks.

Sustainable investing

All Robeco's investment activities comply with the Principles for Responsible Investing (PRI). Responsibility for implementing Sustainable investing lies with Robeco's CIO Fixed Income and Sustainability, who has a seat on Robeco's Executive Committee.

Fulfilling the responsibilities in the field of stewardship forms an integral part of Robeco's approach to Sustainable investing. Robeco publishes its own stewardship policy on the website. This policy describes how Robeco deals with possible conflicts of interest, how the companies in which the sub-funds invest are monitored, how the activities in the field of engagement and voting are conducted, and how the stewardship activities are reported.

Constructive and effective activities under active ownership encourage companies to improve their management of risks and opportunities in the field of ESG which in turn establish a better competitive position and improve profitability and moreover have a positive impact on the community. Active ownership involves voting and engagement. Robeco exercises its voting rights for the shares in its investment funds all over the world. The primary focus of this engagement is to address strategic ESG issues that might affect value creation in the long term.

Robeco has research available from leading sustainability experts, including own proprietary research from the sustainable investing research team. This dedicated Sustainable Investing research team works together very closely with the investment teams to provide them with in-depth sustainability information. The investment analysis focuses on the most material ESG factors and the connection with the financial performance of a company. Robeco can then focus on the most relevant information in performing the investment-analysis and can reach enhanced investment decisions.

To help customers contribute to their sustainable investment objectives, Robeco has developed a methodology that analyses the contribution of investee companies to the Sustainable Development Goals (SDGs) and has developed SDG investment solutions. Furthermore, Robeco contributes to the SDGs by integrating ESG factors in its decision-making process for investments and encourages companies to act in support of these goals by means of a constructive dialogue.

Robeco's climate change policy is focused on integrating climate issues in investments when financially material and engaging with companies. Furthermore Climate risks for our funds are assessed and monitored by Robeco's financial risk management department.

Robeco pursues an exclusion policy for companies that are involved in the production of or trade in controversial weapons such as cluster munitions and anti-personnel mines, for tobacco companies and for companies that seriously and habitually violate either the United Nations Global Compact (UNGC) or the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises. Robeco applies strict criteria for this last category and if a dialogue fails, the company can be excluded. Robeco publishes its exclusion policy and the list of exclusions on its website.

The SFDR classification of the sub-funds is included in following table. More information is available in the precontractual SFDR disclosures of the fund on our website.

¹ Until January 2022, the investments underlying this financial product do not take into account the EU criteria for environmental sustainable economic activities.

As per January 2022, the classification of the sub-fund changed from article 6 to article 8.

² As per January 2022, the classification changed from 8 to 9.

³ As per January 2022, the classification changed from 9 to 8.

Notes applicable to article 8 funds:

1. The sub-fund did not commit to invest in Taxonomy aligned investments. It cannot be excluded that among the sub-fund's holdings certain economic activities were taxonomy-aligned.
2. The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Note applicable to sub-funds with reduce footprint as criterion

1. The sub-fund has promoted among others certain minimal environmental standards and has aimed to have a lower environmental footprint. The sub-fund has however not yet committed to invest in Taxonomy aligned investments. The sub-fund will disclose on its investments in Taxonomy aligned activities once data availability in relation to the EU Taxonomy has improved and stabilized.

Exclusions	The sub-fund's portfolios comply with Robeco's Exclusion Policy (https://www.robeco.com/docm/docu-exclusion-policy.pdf), that is based on exclusion criteria with regards to products and business practices that Robeco believes are detrimental to society and incompatible with sustainable investment strategies. This means that the sub-funds have 0% exposure to excluded securities, taking into account a grace period. Information with regards to the impact of the exclusions on the fund's universe can be found at https://www.robeco.com/docm/docu-exclusion-list.pdf .
ESG Integration	Financially material ESG factors are integrated into the investment process. This means ESG issues can affect target prices, the fundamental assessment of a company or country and/ or the portfolio construction methodology. A key feature of the fund's sustainability investing approach is that companies or countries for government or aggregate bond portfolios with a favorable ESG score have a higher chance of ending up in the portfolio while companies/ countries with poor ESG scores are more likely to be divested from the portfolio. More information on ESG integration can be found at https://www.robeco.com/en/key-strengths/sustainable-investing/glossary/esg-integration.html . All equity holdings in the sub-fund have granted the right to vote and Robeco exerted that right by voting according to Robeco's Proxy Voting Policy, unless impediments occur (e.g. share blocking). Robeco actively used its ownership rights to engage with companies on behalf of the clients in a constructive manner. Robeco engages with companies worldwide, in both equity and credit portfolios. The outcomes of this engagement efforts are communicated to analysts, portfolio managers, and clients, enabling them to incorporate this information into their investment decisions as part of Robeco's integrated Sustainable Investing framework. Engagement consists of a constructive dialogue between institutional investors and investee companies to discuss how they manage ESG risks and seize business opportunities associated with sustainability challenges. More information on both the Robeco's Proxy Voting Policy and the Robeco Engagement policy can be found at https://www.robeco.com/docm/docu-robeco-stewardship-policy.pdf .
Active Ownership	The sub-fund had a lower environmental footprint than the benchmark on Greenhouse gas emissions, for some funds this also applies for water use and waste generation.
Reduce footprint	The sub-fund's investments contributed to address social or environmental challenges by aiming to invest in companies offering solutions to these issues.
Sustainability-themed investing	The sub-fund was solely invested in companies with a positive, neutral or allowed negative calculated SDG score.
SDG Investing	More information on the SDG scores can be found at: https://www.robeco.com/en/key-strengths/sustainable-investing/sustainable-investing-research/robecosam-sdg-score.html

Other data (unaudited) (continued)

Realization of the sustainable targets (continued)

Over the period between 10 March 2021 and 31 December 2021, the sub-fund's investment policies complied with the applicable criteria as outlined in the table Applicable sustainability targets per sub-fund on page 76 through 79.

A further quantitative disclosure for the sub-funds with an article 9 classification under SFDR is given below. The overview based on the objectives and sustainability indicators published on March 10 (or at the time of the fund launch).

RobecoSAM Global SDG Equities

The sub-fund has the following sustainable investment objective: the sub-fund advances the United Nations Sustainable Development Goals (SDGs).

The sustainable investment objective is attained by investing in companies whose business models and operational practices are aligned with the targets defined by the 17 SDGs to create a positive social and environmental impact. The sub-fund solely invests in stocks of companies with a high and medium positive SDG score and will not invest in stocks of companies with a neutral or negative SDG score. The SDG score is based on the Robeco SDG Framework and its proprietary SDG rating methodology.

The sub-fund's investments were in line with the following sustainability indicators:

- 1) The sub-fund was solely invested in companies that hold a high or medium positive SDG score based on the internally developed SDG framework.
- 2) The sub-fund excluded sustainability laggards from the investment universe by excluding the bottom 20% ranked companies per industry (GICS Level 3) with regard to the Smart ESG scores.
- 3) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.

RobecoSAM Global SDG Engagement Equities

The sub-fund has the following sustainable investment objective: to drive a clear and measurable improvement in a company's contribution to the United Nations Sustainable Development Goals (SDGs) over three to five years.

The sustainable investment objective is attained by actively engaging with the invested companies and by having an active dialogue to motivate these companies to improve their fulfilment of the 17 SDGs. The sub-fund invests in companies based on Robeco SDG Framework and applying the proprietary SDG rating methodology, selecting companies with negative, neutral or positive score taking into account how a company contributes to the SDGs.

The sub-fund's investments were in line with the following sustainability indicators:

- 1) The sub-fund was solely invested in companies that hold a -1, 0 (zero) or positive SDG score.
- 2) The sub-fund actively engaged with all holdings in the portfolio. Since the launch of the sub-fund in September 2021, the Robeco Active Ownership team has initiated engagement with 35 companies across 13 countries, addressing 471 engagement objectives linked to the 17 SDGs.
- 3) 100% of the sub-fund's portfolio is invested in line with Robeco's Exclusion Policy, excluding investments in companies that are exposed to controversial behavior and controversial products (including controversial weapons, tobacco, palm oil, fossil fuel, military contracting, firearms, nuclear power, alcohol, gambling, adult entertainment, and cannabis).

RobecoSAM QI Global SDG & Climate Beta Equities

The sub-fund advances the United Nation's Sustainable Development Goals (SDGs) and the fund contributes to keeping the maximum global temperature rise well-below 2°C by reducing the carbon footprint of its global equity portfolio.

- 1) All equity holdings have granted the right to vote and Robeco exerts that right by voting according to Robeco's Proxy Voting Policy, unless impediments occur (e.g. share blocking).
- 2) The sub-fund's weighted carbon footprint was 137.5 tCo2 eq/ mUSD, better than the 144 tCo2 eq/ mUSD of its Paris Aligned Index and the 357.2 tCo2 eq/ mUSD for the market index.
- 3) The sub-fund's weighted water and waste footprint score is at least 20% better than that of the reference index. The water usage was 193.6 m3/ mUSD, 59% better and waste was with a score of 1.2 tonnes/ mUSD 63% better.
- 4) The sub-fund fully complies with activity based exclusions with regards to products (including controversial weapons, tobacco, palm oil, and thermal coal, upstream oil and gas and electricity producers in line with Article 12 of the EU regulation on Climate Transition Benchmarks, EU Paris-aligned Benchmarks and sustainability-related disclosures for benchmarks). In addition, the fund applies exclusion criteria with regards to products (including fossil fuel, military contracting, firearms, nuclear power, cannabis, alcohol, gambling and adult entertainment) and business practices that Robeco believes are detrimental to society and incompatible with sustainable investment strategies. All this taking into account a grace period.
- 5) The sub-fund had no investment in companies that are in breach of the UNGPs or OECD Guidelines for Multinational Enterprises.
- 6) The sub-fund was solely invested in companies that hold a neutral or positive SDG score.
- 7) The sub-fund's weighted average ESG score was 19.25, at least 10% better than the 21.65 of the reference index.

Other data (unaudited) (continued)

Realization of the sustainable targets (continued)

RobecoSAM Circular Economy Equities

The sub-fund has the following sustainable investment objective: to finance solutions that reduce the overall consumption of finite resources and to prevent loss of biodiversity, by investing in companies that foster resource-efficient business models with regard to the production and consumption of consumer goods, aligned with Circular Economy principles including reuse, redesign, repair, recycling and responsible consumption.

The sub-fund uses as its main data source the proprietary thematic research methodology, which results in the proprietary Thematic Universe. To conduct this analysis, portfolio managers and analysts regularly perform a structural review of the market to identify companies whose products and services provide a solution for respective sustainability challenges.

The sub-fund's investments were in line with the following sustainability indicators:

- 1) The sub-fund was invested in companies that are part of the eligible investment universe as determined through the thematic universe methodology
- 2) The sub-fund was solely invested in companies with a positive or neutral SDG score.
- 3) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.

RobecoSAM Smart Energy Equities

The sub-fund has the following sustainable investment objective: to enable and enhance the decarbonization and electrification of the global energy sector.

The sub-fund uses as its main data source the proprietary thematic research methodology, which results in the proprietary Thematic Universe. To conduct this analysis, portfolio managers and analysts regularly perform a structural review of the market to identify companies whose products and services provide a solution for respective sustainability challenges.

The sub-fund's investments were in line with the following sustainability indicators:

- 1) The sub-fund was invested in companies that are part of the eligible investment universe as determined through the thematic universe methodology.
- 2) The sub-fund was solely invested in companies with a positive or neutral SDG score.
- 3) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.

RobecoSAM Smart Materials Equities

The sub-fund has the following sustainable investment objective: to foster solutions to reduce resource intensity in the economy, by investing in more efficient, scalable materials that have lower emissions over the lifetime. It includes recycling and reuse of materials as well as efficient production and design of products and related use of materials.

The sub-fund uses as its main data source the proprietary thematic research methodology, which results in the proprietary Thematic Universe. To conduct this analysis, portfolio managers and analysts regularly perform a structural review of the market to identify companies whose products and services provide a solution for respective sustainability challenges.

The sub-fund's investment were in line with the following sustainability indicators:

- 1) The sub-fund was invested in companies that are part of the eligible investment universe as determined through the thematic universe methodology.
- 2) The sub-fund was solely invested in companies with a positive or neutral SDG score.
- 3) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.

RobecoSAM Smart Mobility Equities

The sub-fund has the following sustainable investment objective: to further the transformation and decarbonization of the global transportation sector.

The sub-fund uses as its main data source the proprietary thematic research methodology, which results in the proprietary Thematic Universe. To conduct this analysis, portfolio managers and analysts regularly perform a structural review of the market to identify companies whose products and services provide a solution for respective sustainability challenges.

The sub-fund's investments were in line with the following sustainability indicators:

- 1) The sub-fund was invested in companies that are part of the eligible investment universe as determined through the thematic universe methodology.
- 2) The sub-fund was solely invested in companies with a positive, neutral score.
- 3) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.

Other data (unaudited) (continued)

Realization of the sustainable targets (continued)

RobecoSAM Sustainable Healthy Living Equities

The sub-fund has the following sustainable investment objective: to mitigate the rising incidence of lifestyle diseases and increasing healthcare costs, by investing in companies that provide technologies, products or services linked to the prevention of disease via eating healthier diets, exercising regularly and reducing the spread of infectious diseases with hygiene measures. In addition, the strategy also invests in companies that provide effective medical treatments allowing for the lowering of total cost of disease and reducing the negative impact of impaired health on society.

The sub-fund uses as its main data source the proprietary thematic research methodology, which results in the proprietary Thematic Universe. To conduct this analysis, portfolio managers and analysts regularly perform a structural review of the market to identify companies whose products and services provide a solution for respective sustainability challenges.

The sub-fund's investments were in line with the following sustainability indicators:

- 1) The sub-fund was invested in companies that are part of the eligible investment universe as determined through the thematic universe methodology.
- 2) The sub-fund was solely invested in companies with a positive or neutral SDG score.
- 3) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.

RobecoSAM Sustainable Water Equities

The sub-fund has the following sustainable investment objective: to finance the water infrastructure and to contribute to the distribution of tap water, as well as the collection and treatment of wastewater, by investing in companies which supply to the value chain of water or which offer products or technologies which are more water efficient than others in their category.

The sub-fund uses as its main data source the proprietary thematic research methodology, which results in the proprietary Thematic Universe. To conduct this analysis, portfolio managers and analysts regularly perform a structural review of the market to identify companies whose products and services provide a solution for respective sustainability challenges.

The sub-fund's investment were in line with the following sustainability indicators:

- 1) The sub-fund was invested in companies that are part of the eligible investment universe as determined through the thematic universe methodology.
- 2) The sub-fund was solely invested in companies with a positive or neutral SDG score.
- 3) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.

RobecoSAM Global Gender Equality Impact Equities

The sub-fund has the following sustainable investment objective: to create a positive social impact by investing in gender equality leaders. Gender equality leaders are companies that consciously recognize and promote gender equality by recruiting, nurturing and retaining female talent at all levels of the company's organization, including at the committee and board level.

The sustainable investment objective is attained by mainly investing in companies exhibiting a high degree of sustainability, gender diversity and gender equality as defined by the RobecoSAM Gender Equality score, a proprietary gender equality performance rating system.

The sub-fund's investment were in line with the following sustainability indicators:

- 1) The sub-fund mainly invested in leader companies in terms of Gender Equality score from an eligible investment universe. The sub-fund uses the proprietary Gender Equality Score, which is constructed based on the 5 gender-equality-related questions that are sourced from the CSA, each with a respective weight.
- 2) The sub-fund was solely invested in companies with a positive, neutral or allowed negative SDG score. Each allowed negative score was approved by the SDG Committee.
- 3) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.

RobecoSAM SDG Credit Income

The sub-fund has the following sustainable investment objective: the sub-fund advances the United Nations Sustainable Development Goals (SDGs).

The sustainable investment objective is attained by investing in companies whose business models and operational practices are aligned with the targets defined by the 17 SDGs to create a positive social and environmental impact. The sub-fund solely invests in bonds of companies with a positive or neutral SDG score and will not invest in bonds of companies with a negative SDG score. The SDG score is based on the Robeco SDG Framework and its proprietary SDG rating methodology.

The sub-fund's investments were in line with the following sustainability indicators:

- 1) The sub-fund was solely invested in companies that hold a positive or neutral SDG score.
- 2) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.
- 3) The sub-fund had no investment in companies that are in breach of the UNGPs or OECD Guidelines for Multinational Enterprises.

Other data (unaudited) (continued)

Realization of the sustainable targets (continued)

RobecoSAM Global SDG Credits

The sub-fund has the following sustainable investment objective: the sub-fund advances the United Nations Sustainable Development Goals (SDGs).

The sustainable investment objective is attained by investing in companies whose business models and operational practices are aligned with the targets defined by the 17 SDGs to create a positive social and environmental impact. The sub-fund solely invests in bonds of companies with a positive or neutral SDG score and will not invest in bonds of companies with a negative SDG score. The SDG score is based on the Robeco SDG Framework and its proprietary SDG rating methodology.

The sub-fund's investment were in line with the following sustainability indicators:

- 1) The sub-fund was solely invested in companies that hold a positive or neutral SDG score.
- 2) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.
- 3) The sub-fund had no investment in companies that are in breach of the UNGPs or OECD Guidelines for Multinational Enterprises.

RobecoSAM SDG High Yield Bonds

The sub-fund has the following sustainable investment objective: the sub-fund advances the United Nations Sustainable Development Goals (SDGs).

The sustainable investment objective is attained by investing in companies whose business models and operational practices are aligned with the targets defined by the 17 SDGs to create a positive social and environmental impact. The sub-fund solely invests in bonds of companies with a positive or neutral SDG score and will not invest in bonds of companies with a negative SDG score. The SDG score is based on the Robeco SDG Framework and its proprietary SDG rating methodology.

The sub-fund's investment were in line with the following sustainability indicators:

- 1) The sub-fund was solely invested in companies that hold a positive or neutral SDG score.
- 2) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.
- 3) The sub-fund had no investment in companies that are in breach of the UNGPs or OECD Guidelines for Multinational Enterprises.

RobecoSAM Global Green Bonds

The sub-fund has the following sustainable investment objective: to finance investments that contribute to environmental goals like climate change mitigation and adaptation, sustainable use and protection of water and marine resources, transition to a circular economy, waste prevention and recycling, pollution prevention and protection of healthy ecosystems.

The sustainable investment objective is attained by investing in green bonds from both sovereigns as well as companies.

The sub-fund's investment were in line with the following sustainability indicators:

- 1) Of the sub-fund's investments, 97% was invested in Green bonds.
- 2) 100% of the sub-fund's portfolio was invested in line with Robeco's Exclusion Policy.
- 3) The sub-fund had no investment in companies that are in breach of the UNGPs or OECD Guidelines for Multinational Enterprises.

RobecoSAM Climate Global Credits

The sub-fund has the following sustainable investment objective: the sub-fund contributes to keeping the maximum global temperature rise well-below 2°C by reducing the carbon footprint of its global credits portfolio.

The sustainable investment objective is attained by aligning the carbon footprint reduction objectives of the sub-fund with the Solactive Paris Aligned Global Corporate Index.

The sub-fund's investments were in line with the following sustainability indicators:

- 1) The sub-fund's weighted average carbon footprint is equal or better than the Solactive Paris Aware Global Aggregate Index. At year-end 2021, the carbon footprint was 187 tCO₂ eq/mUSD versus an index GHG emission level of 270 tCO₂ eq/ mUSD, which was 51% below the Solactive Global Corporate index.
- 2) The sub-fund's investments were 100% compliance with the activity-based exclusions, such as excluding thermal coal, upstream oil and gas and electricity producers in line with Article 12 of the EU regulation on Climate Transition Benchmarks, EU Paris-aligned Benchmarks and sustainability-related disclosures for benchmarks.
- 3) The sub-fund had no investment in companies that are in breach of the UNGPs or OECD Guidelines for Multinational Enterprises.

The VaR is calculated on a daily basis, in accordance with UCITS regulation (99% confidence interval).

Remuneration policy and remuneration paid

The fund itself does not employ any personnel and is managed by Robeco Institutional Asset Management B.V. ('RIAM'). The remuneration for persons working for RIAM comes out of the management fee.

Remuneration policy

RIAM's remuneration policy, which applies to all staff working under its responsibility, complies with the applicable requirements laid down in the European framework documents of the UCITS Directive and the ESMA guidelines for a responsible remuneration policy under the UCITS Directive.

The remuneration policy of RIAM can be obtained free of charge at the offices of the Company.

This remuneration policy applies to all staff of RIAM, including individuals who may have a material impact on the risk profile of the fund. These persons are designated to be 'Identified Staff'.

Responsibility for and application of the policy

RIAM's Remuneration Policy is determined, applied and annually reviewed by and on behalf of RIAM with the approval of its shareholder, the (Board of) Robeco Holding B.V. For each review (the Board of) Robeco Holding B.V. shall obtain prior advice from the Supervisory Board of RIAM, which acts as its Supervisory Board. In the application and evaluation of the remuneration policy, RIAM occasionally makes use of the services of various external advisers.

Remuneration in 2021

The total remuneration granted for RIAM over the performance year 2021 is shown in the table below:

Total remuneration RIAM in EUR x 1,000		
Staff category	Fixed pay for 2021	Variable pay for 2021
Management Board of RIAM (3 members)	1,900	4,100
Identified Staff (101) (ex Board)	18,300	20,900
Other employees (653 employees)	56,400	23,200

Of the total amounts granted in remuneration in 2021 to the Board Identified Staff and Other Employees, the following amounts are attributable to the fund:

Remuneration attributed to the fund in EUR x 1,000		
Staff category	Fixed pay for 2021	Variable pay for 2021
Management Board of RIAM (3 members)	825	1,780
Identified Staff (101) (ex Board)	7,946	9,075
Other employees (653 employees)	24,490	10,074

Other data (unaudited) (continued)

Remuneration policy and remuneration paid (continued)

Remuneration in 2021 (continued)

The total of the fixed and variable remuneration attributable to the fund is EUR 54,190,007. Imputation occurs according to the following key:

$$\text{Total remuneration (fixed and variable) x } \frac{\text{Total fund assets}}{\text{Total assets under management (RIAM)}}$$

As mentioned above the remuneration, which comes out of the management fee, is paid by RIAM and is therefore not charged to the fund separately.

Board Remuneration

The Board believes that the remuneration of its members should reflect the responsibilities and experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund. The remuneration is reviewed on an annual basis. The Independent directors have been paid EUR 76,711 for the year ended 31 December 2021. No variable remuneration is paid to the independent directors. The other directors have agreed to waive their remuneration.

Securities lending (continued)

Maturity tenor of securities lending transactions

All securities on loan can be recalled at any point. The Fund's securities lending transactions have open maturity.

Settlement and clearing

The Company's securities lending transactions, including related collateral, are settled and cleared on a tri-party basis.

Re-use of collateral

Non cash collateral, received in a securities lending transaction may not be sold, re-invested or pledged. Cash collateral received from such transactions is re-used in a reverse repurchase transaction.

Safekeeping of collateral

Collateral received

J.P. Morgan SE (previously named J.P. Morgan Bank Luxembourg S.A.) as securities lending agent of the Fund, is responsible for the safekeeping of the collateral received in respect of securities lending transactions as at the reporting date. The Custodian J.P. Morgan SE (previously named J.P. Morgan Bank Luxembourg S.A.) is ultimately liable for any loss of instruments held in custody or by a third party to whom custody had been delegated (the sub-custody).

Collateral granted

No collateral is granted by the Company as part of their securities lending activities.

Return and cost

The total income earned from securities lending transactions is split between the funds and the securities lending agent. Details of this split are disclosed in notes to the financial statements on page 254. Income earned during the year by the funds from securities lending transactions is disclosed in the statement of operations and changes in net assets on page 184.

Notes to the financial statements as at 31 December 2021

1. General

Robeco Capital Growth Funds (the 'Company') was incorporated on 2 May 1997 for an undetermined period of time as an open ended investment company based in Luxembourg, issuing and redeeming its shares on demand at prices based on the respective Net Asset Values per share. Its Articles of Incorporation were published in the 'Memorial, Recueil des Societes et Associations' of the Grand Duchy of Luxembourg (the 'Memorial') on 6 June 1997. The Articles of Incorporation were last amended effective as per 1 January 2022. Robeco Capital Growth Funds is a 'Societe d'Investissement a Capital Variable' (SICAV) pursuant to the law of 10 August 1915, as amended, on commercial companies and to part I of the law of 17 December 2010, on undertakings for collective investment of the Grand Duchy of Luxembourg.

The Company takes the form of an umbrella fund. It is made up of several sub-funds each representing an investment portfolio and other assets and liabilities corresponding to a different investment policy. Each sub-fund is therefore represented by different types of shares with one or more classes of shares. The Board of Directors has authority to issue different categories of shares within each of the sub-funds. The Directors of the Company may at any time establish new sub-funds and/or may decide upon the issue of class A, AH, D, D2, D2H, DH, DHL, DL, F, FH, FHL, FL, I, IH, IHL, IL, IM, IMH, J, K, KH, M, M2, M2H, MH, ML, S, SH, Z, Z2H, 0DH, 0MH, 0FH, 0IH, 2FH, 2IH and IHHi shares (accumulating classes) and class A1, A1H, B, Ba, BaH, BH, Bx, BxH, C, CH, Cx, CxH, D3, E, EH, G, GH, IB, IBH, IBx, IBxH, IE, IEx, IExH, KE, M2, M3, M3H, MB, MBx, MBxH, ZB, ZBH, ZEH, 0BxH, 0CH, 0D3H, 0EH, 0IEH, 2CH and 2EH shares (distributing classes) in existing or new sub-funds. The reference currency of the classes of shares may be the Euro (EUR), the US Dollar (USD), the British Pound (GBP), the Swiss Franc (CHF), the Japanese Yen (JPY), the Canadian Dollar (CAD), the Chinese Renminbi (RMB), the Mexican Peso (MXN), the Hong Kong Dollar (HKD), the Singapore Dollar (SGD), the Swedish Crown (SEK), the Norwegian Crown (NOK), the Danish Crown (DKK), the Australian Dollar (AUD), the South African Rand (ZAR), the Brazilian Real (BRL) and the Israeli Shekel (ILS).

Legal entity

The Company as a whole constitutes a single legal entity however the assets of any one sub-fund will only be available to satisfy the rights of investors in relation to that sub-fund and the rights of creditors whose claims have arisen in connection with the creation, operation or liquidation of the sub-fund. For the purpose of the relations as between shareholders, each sub-fund is deemed to be a separate entity.

Dividend policy

The general policy regarding the appropriation of net income and capital gains is as follows:

Class D, D2, DH, DL, F, FH, FL, I, IH, IL, IM, IMH, J, K, KH, M, M2, MH, ML, Z, Z2H, 0DH, 0MH, 0FH, 0IH, 2FH, 2IH and IHHi shares (accumulating)

Income is reinvested and added to the relevant sub-funds and contributes to a further increase in value of the total net assets.

Class A1, A1H, B, Ba, BaH, BH, Bx, BxH, C, CH, Cx, CxH, D3, D3H, E, EH, G, GH, IB, IBH, IBx, IBxH, IE, IEH, IEx, IExH, KE, M3, MB, MBx, MBxH, ZB, ZBH, ZEH, 0BxH, 0CH, 0D3H, 0EH, 0IEH, 2CH and 2EH shares (distributing)

After the end of the reporting period, the Company can recommend what distribution shall be made from the net investment income and net capital gains attributable to the Class A1, A1H, B, Ba, BaH, BH, Bx, BxH, C, CH, Cx, CxH, D3, D3H, E, EH, G, GH, IB, IBH, IBx, IBxH, IE, IEH, IEx, IExH, IMB, KE, M3, MB, MBx, MBxH, ZB, ZBH, ZEH, 0BxH, 0CH, 0D3H, 0EH, 0IEH, 2CH and 2EH shares. The Annual General Meeting of Shareholders will determine the dividend payment. The Board of Directors of the Company may decide to distribute interim dividends, in accordance with Luxembourg law.

General remarks

As provided by the 2010 law, the Company may decide to distribute dividends with no other limit than the obligation that any such dividend distribution does not reduce the net asset value of the Company below the legal minimum amount. Similarly, the Company may distribute interim dividends and may decide to pay dividends in shares. If dividends are distributed, payments of cash dividends to registered shareholders will be made in the currency of the relevant share class to such shareholders at the addresses they have given to the Registrar Agent. Dividend announcements (including names of paying agents) and all other financial notices concerning Robeco Capital Growth Funds shall be published on www.robeco.com/riam and published in those newspapers as the Board of Directors shall determine from time to time. Dividends not collected within five years will lapse and accrue for the benefit of the Company in accordance with Luxembourg law.

Open-ended fund

The Company is an open-ended investment Company, meaning that, barring exceptional circumstances, the Company issues and purchases its shares on a daily basis at prices at net asset value per share. The Company reserves the right to refuse any subscription request at any time.

Notes to the financial statements as at 31 December 2021 (continued)

1. General (continued)

Swing pricing

Shares are issued and redeemed on the basis of the net asset value per share. However, the actual costs of purchasing or selling assets and investments for a sub-fund may deviate from the latest available prices, as appropriate, in calculating the net asset value per share. This deviation can be caused by duties and charges and spread from buying and selling prices of the underlying investments ('spreads'). These costs have an adverse effect on the value of a sub-fund and its underlying share classes and are known as dilution. To mitigate the effects of dilution, the Directors may, at their discretion, make a dilution adjustment to the net asset value per share. The Directors will retain the discretion in relation to the circumstances under which to make such a dilution adjustment. At the end of the reporting period, no swing adjustments were made.

The dilution adjustment will involve adding to, when the sub-fund is in a net subscription position, and deducting from, when the sub-fund is in a net redemption position, the Net Asset Value per Share such figure as the Company considers representing an appropriate figure to meet the Cash Flow Costs. The resultant amount will be the Price rounded to such number of decimal places as the Company deems appropriate. The dilution adjustments may vary depending on the order type (net subscription or net redemption), on the underlying asset classes for any sub-fund or on the market conditions. The dilution adjustments as well as the dealing levels from which they become applicable may be amended from time to time depending on market conditions or any other situation where the Company is of the opinion that the interests of the Shareholders require such amendment(s).

Additional details on the anti-dilution/swing pricing adjustments and actual swing factors can be found on www.robeco.com/riam.

For the avoidance of doubt, Shareholders placed in the same situation will be treated in an identical manner.

Where a dilution adjustment is made, it will increase the Price where the sub-fund is in a net subscription position and decrease the Price where the sub-fund is in a net redemption position. The Price of each Class in the sub-fund will be calculated separately but any dilution adjustment will in percentage terms affect the Price of each Class in an identical manner. The dilution adjustment is made on the capital activity at the level of the sub-fund and does not address the specific circumstances of each individual investor transaction.

Pooling and co-management

For the purpose of efficient management and to reduce administrative costs and if the investment policies of the sub-funds allow such, the Board of Directors may decide to co-manage some or all of the assets of certain sub-funds with assets of other Luxembourg UCIs of the Robeco Group (co-managed units). In this case, the assets from different co-managed units will be jointly managed using the technique of pooling. Assets that are co-managed will be referred to using the term 'pool'. Such pools will only be used for the purposes of internal management. They will not constitute distinct legal entities and will not be directly accessible to investors. Each co-managed unit will have its own assets allocated to it. During the reporting period no pooling or co-management took place.

Affiliated parties

Robeco is affiliated with ORIX Corporation Europe N.V. ORIX Corporation Europe N.V. is part of ORIX Corporation. The management structure of ORIX Corporation Europe N.V. is such that ORIX Corporation does not have any say in or influence on Robeco's business policy. Besides services of other market parties, the Company may also utilize the services of Robeco or one or more of its affiliates, including transactions relating to securities, treasury, derivatives, securities lending, and subscriptions and redemptions of its own shares, as well as management activities. Transactions are executed at market rates.

The Board of Directors of the Company have appointed Robeco Institutional Asset Management B.V. as the Management Company to be responsible on a day-to-day basis for providing administration, marketing and investment management services in respect of the subfunds. The Management Company has delegated the administration functions and registrar agent functions to J.P. Morgan SE. The different sub-funds and share-classes will incur an annual management fee which reflects all expenses related to the management of the Company which is payable to the Management Company. The Directors of the Company are also Director of Robeco QI Global Dynamic Duration, Robeco Global Total Return Bond Fund, Robeco All Strategies Funds, Robeco (LU) Funds III and Robeco Institutional Solutions Fund.

Financial instruments

Risks

Transactions in financial instruments may lead the sub-funds to be subject to the risks described below or to the sub-funds transferring these risks to another party.

Notes to the financial statements as at 31 December 2021 (continued)

1. General (continued)

Financial instruments (continued)

Risks (continued)

General investment risk

The value of the investments may fluctuate. Past performance is no guarantee of future results. The net asset value of the sub-funds is affected by developments in the financial markets and may both rise and fall. Shareholders run the risk that their investments may end up being worth less than the amount invested or even worth nothing. Bonds or other debt securities involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities. In the event that any issuer of Bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities and any amounts paid on such securities. This may in turn affect the NAV per share. General investment risk can be broken down into market risk, concentration risk and currency risk.

Market risk

The net asset value of the sub-funds is sensitive to market movements. In addition, investors should be aware of the possibility that the value of investments may vary as a result of changes in political, economic or market circumstances. No assurance can, therefore, be given that the sub-fund's investment objective will be achieved. It cannot be guaranteed either that the value of a share in a sub-fund will not fall below its value at the time of acquisition.

Concentration risk

Based on its investment policies, each sub-fund may invest in financial instruments from issuing institutions that (mainly) operate within the same sector or region, or in the same market. If this is the case, the concentration of the investment portfolio of the sub-fund may cause events that have an effect on these issuing institutions to have a greater effect on the sub-fund's assets than would occur with a less concentrated investment portfolio.

Currency risk

All or part of the investment portfolio of a sub-fund may be invested in currencies or financial instruments denominated in currencies other than its reference currency. As a result, fluctuations in exchange rates may have both a negative and a positive effect on the investment result of the sub-fund. The Equity sub-funds minimize the risks by investing mainly in well-known companies and by making a balanced selection with regard to distribution across regions, sectors, individual stocks and currencies. The risk relative to their index is minimized by using quantitative techniques. The Bond sub-funds minimize the risks by making a balanced selection with regard to distribution across regions, sectors, individual Bonds and currencies and by investing in Bonds with a minimum rating depending on the sub-funds investment policy. The risk relative to their index is minimized by using quantitative techniques.

Counterparty risk

A counterparty of a sub-fund may fail to fulfill its obligations towards that sub-fund. In case of hedging transactions in classes of shares, the relevant sub-fund carries the counterparty risk. This risk is limited as much as possible by taking every possible care in the selection of counterparties. Wherever it is customary in the market, the sub-funds will demand and obtain collateral. The sub-funds minimize this risk by trading exclusively with reputable counterparties with a minimum rating of A in the Standard & Poor's or other recognized credit rating agencies lists.

Risk of lending financial instruments

In the case of financial instrument lending transactions, the Company and its respective sub-funds concerned run the risk that the borrower cannot comply with its obligation to return the financial instruments on the agreed date or furnish the requested collateral. The lending policy of the Company is designed to control these risks as much as possible.

The credit worthiness of counterparties in securities-lending transactions is assessed on the basis of how independent rating agencies regard their short-term credit worthiness and on the basis of their net assets. Guarantees given by parent companies are also taken into account. The fund only accepts collateral from OECD countries in the form of:

- government Bonds with a minimum credit rating of BBB;
- the Bonds of supranational bodies with a minimum credit rating of BBB-;
- stocks listed on the main indexes of stock markets in OECD countries; and to a limited extent in the form of
- index trackers;
- stocks issued by financial institutions;
- cash.

As of balance-sheet date, the fund had received collateral ensuing from securities-lending transactions. More information can be found on page 252.

Notes to the financial statements as at 31 December 2021 (continued)

1. General (continued)

Financial instruments (continued)

Risks (continued)

Liquidity risk

The actual buying and selling prices of financial instruments in which the sub-funds invest partly depend upon the liquidity of the financial instruments in question. It is possible that a position taken on behalf of a sub-fund cannot be quickly liquidated in a good time at a reasonable price due to a lack of liquidity in the market in terms of supply and demand. The sub-funds minimize this risk by mainly investing in financial instruments that are tradable on a daily basis.

Euro currency risk

All or part of the assets of sub-funds may be invested in securities denominated in Euro. In the event of any adjustments, including a full break-up, an exit of individual countries or other circumstances that may result in the emergence or reintroduction of national currencies, each sub-fund runs the risks that the value of its investments is reduced and/or the liquidity of its investments is (temporarily) reduced, regardless of the measures the Company may seek to reduce this risk.

Operational risk

The operational risk is the non inherent risk remaining after determining the risks as detailed above (general investment risk, counterparty risk, liquidity risk, Euro currency risk or risk of lending financial instruments). It mainly includes risks resulting from breakdowns in internal procedures, people and systems.

Insight into actual risks

The report of the Board of Directors, the Statement of net assets, the Notes to the financial statements and the Schedule of Investments, which include currency classification of the investments, give an insight into the actual risks at the end of the reporting period.

Risk management

Managing risk is a part of the investment process as a whole and with the help of advanced systems, the risks outlined above are limited, measured and monitored on the basis of fixed risk measures.

Policy regarding the use of derivatives

Investing implies that positions are taken. As it is possible to use various instruments, including derivative instruments, to construct an identical position, the selection of derivatives is subordinate to the positioning of an investment portfolio. In our published information, attention is given primarily to the overall position, and secondarily to the nature and volume of the financial instruments employed.

Derivative instruments

The unrealized results of derivative instruments are reported in the Statement of net assets. Commitments to derivatives are not included in the Statement of net assets. They are, however, explained in the Schedule of Investments. The unrealized results presented in the Statement of net assets are disclosed by contract in the Schedule of Investments.

The derivative instruments listed in the Notes are transacted through third party brokers. Those brokers hold/paid collateral as described on page 252. The Company is exposed to counterparty risk in respect of all amounts including collateral due to it from such brokers.

2. Summary of significant accounting principles

General

Unless stated otherwise, the items shown in the financial statements are included at their nominal value and expressed in the reference currency of the sub-fund. This annual report covers the reporting period from 1 January 2021 until 31 December 2021.

Preparation and presentation of financial statements

The financial statements are prepared on the basis of the last NAV calculated during the reporting period (31 December 2021 for all sub-funds) and presented in accordance with Luxembourg generally accepted accounting principles for investment funds. The going concern basis was applied for the preparation of the financial statements of the Fund and its sub-funds, except for the sub-funds liquidated during the year and for the sub-fund Robeco QI Continental European Conservative Equities, that will be liquidated on 10 May 2022.

Combined figures

The combined figures are expressed in Euro and are presented for information purpose only. The combined figures are the sum of the statements of each sub-funds. The Combined Statement of net assets is presented in EUR at the exchange rates prevailing at the end of the reporting period, while the Combined Statement of operations and changes in net assets is presented in EUR at the average exchange rates during the year. Cross sub-funds investments (where one sub-fund invested within sub-fund of the Company) have not been eliminated from the Combined Statement.

Notes to the financial statements as at 31 December 2021 (continued)

2. Summary of significant accounting principles (continued)

Combined figures (continued)

Foreign currencies

Transactions in currencies other than the reference currency of the relevant sub-fund are converted into the reference currency at the exchange rates prevailing at the time of the transaction. The market value of the investments, assets and liabilities expressed in currencies other than the reference currency of the sub-fund are converted into the sub-fund's reference currency at the exchange rates prevailing at the end of the reporting period. Any positive or negative exchange differences arising are accounted for in the Statement of operations and changes in net assets. The table on page 323 shows the exchange rates as at 31 December 2021.

Valuation of investments

Transferable securities, money market instruments and financial derivative instruments listed on an official stock exchange listing

These instruments are valued at their last available market price; in the event that there should be several such markets, on the basis of the last available price of the main market for the relevant security or asset. Should the last available market price for a given transferable security, money market instrument or financial derivative instrument not truly reflect its fair market value, then that transferable security, money market instrument or financial derivative instrument is valued on the basis of the probable sales price which the Board of Directors deems prudent to assume. Fixed income securities not traded on such markets are generally valued at the last available price or yield equivalents obtained from one or more dealers or pricing services approved by the Board of Directors or any other price deemed appropriate by the Board of Directors. According to the valuation policy which is approved by the Fund Board a fair value adjustment will be made to reflect the current market values for securities traded in markets with a different timezone (mainly Asia Pacific) where new market information surfaces after the close of the local market but before the calculation of the NAV.

Transferable securities and/or money market instruments dealt in on another regulated market

These instruments are valued on the basis of their last available market price. Should the last available market price for a given transferable security and/or money market instrument not truly reflect its fair market value, then that transferable security and/or money market instrument is valued by the Board of Directors on the basis of the probable sales price which the Board of Directors deems prudent to assume.

Transferable securities and/or money market instruments not listed or dealt in on any stock exchange or on any regulated market

In the event that any assets are not listed or dealt in on any stock exchange or on any regulated market, or if, with respect to assets listed or dealt in on any stock exchange, or on any regulated market as aforesaid, where the above valuation methods are inappropriate or misleading, the Board of Directors may adopt any other appropriate valuation principles for the assets of the Company.

Shares in underlying open-ended investment funds

These shares or units are valued at their latest available net asset value per share. In the event that such valuation method is inappropriate or misleading, the Board of Directors may adopt any other appropriate valuation principles for the assets of the Company.

Sub-funds primarily invested in markets which are closed for business at the time of valuation of the sub-fund are normally valued using the prices at the previous close of business.

Market volatility may result in the latest available prices not accurately reflecting the fair value of the sub-fund's investments. This situation could be exploited by investors who are aware of the direction of market movements, and who might deal to exploit the difference between the next published Net Asset Value and the fair value of the sub-fund's investments. By these investors paying less than the fair value for shares on issue, or receiving more than the fair value for shares on redemption, other shareholders may suffer a dilution in the value of their investment. To prevent this, the Company may, during periods of market volatility, adjust the Net Asset Value per Share prior to publication to reflect more accurately the fair value of the sub-fund's investments. Adjustment will be made provided that such change exceeds the threshold as determined by the Board of Directors for the relevant sub-fund. If an adjustment is made, it will be applied consistently to all classes of shares in the same sub-fund. At the end of the reporting period, no such adjustments were made:

Investment transactions and investment income

Securities are initially recorded at cost, and where applicable on the basis of exchange rates prevailing on the date they are purchased. Results on sales of securities are determined on the basis of the average cost method (for futures first in first out method). Investment transactions are accounted for on the trade date. Dividends are accounted for on the ex-dividend date. Interest income is recorded on an accrual basis. Discounts/Premiums on zero coupon Bonds are accreted as adjustments to interest income. Interest and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

Notes to the financial statements as at 31 December 2021 (continued)

3. Open forward exchange transactions

Open forward exchange transactions are valued with market practice valuation models using forwards rates based on exchange and interest rates applicable at 31 December 2021. The unrealized results of these transactions have been recorded gross in the Statement of net assets under the heading 'Unrealised gain/loss on forward currency exchange contracts' and changes in unrealized results are recorded in the Statement of operations and changes in net assets under the heading 'Net change in unrealised appreciation/(depreciation) on forward currency exchange contracts'. The contracts outstanding as at 31 December 2021 are disclosed in the Schedule of Investments. Information on the collateral received or paid on these positions is stated in the table on page 252. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'.

4. Interest rate swaps

Interest rate swaps are valued with market practice valuation models using exchange and interest rates applicable at 31 December 2021. The unrealized gains/losses on interest rate swaps are recorded gross in the Statement of net assets under the heading 'Swap contracts at fair value' and changes in unrealized results are recorded in the Statement of operations and changes in net assets under the heading 'Net change in unrealised appreciation/(depreciation) on Swaps contracts'. The contracts outstanding as at 31 December 2021 are disclosed in the Schedule of Investments. Information on the collateral on these positions is stated in the table on page 252. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'.

5. Credit default swaps

Credit default swaps are valued at fair value under procedures approved by the Board of Directors. The valuation is based on recognised market models with observable market inputs used to perform the valuation. The unrealized gains/losses on credit default swaps are recorded gross in the Statement of net assets under the heading 'Swap contracts at fair value' and changes in unrealized results are recorded in the Statement of operations and changes in net assets under the heading 'Net change in unrealised appreciation/(depreciation) on Swaps contracts'. The contracts outstanding as at 31 December 2021 are disclosed in the Schedule of Investments. Information on the collateral on these positions is stated in the table on page 252. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'.

6. Financial futures contracts

Regulated futures contracts are valued at their exchange quoted settlement price. Initial margin deposits are made upon entering into futures contracts. Variation margin payments are made or received, depending on the daily fluctuation in market value of the contract and are recorded by the fund as unrealized appreciation or depreciation. When the contract is closed, the Company records a realized gain or loss equal to difference between the value of the contract at the time it was opened and the value at the time it was closed. All margin deposits are included in the Statement of net assets under the heading 'Cash at bank and at brokers'.

Changes in unrealized results and realized results during the period are both recorded in the Statement of operations and changes in net assets. The contracts outstanding as at 31 December 2021 are disclosed in the Schedule of Investments.

7. Collateral

Several sub-funds received or paid collateral to cover the unrealized results on derivative instruments. Collaterals are calculated and settled on a daily basis per counterparty. The collateral is primarily cash held at the broker in the name of the sub-fund. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'. No cash collateral has been reinvested. The amounts per sub-fund and counterparty are shown in the table below.

Sub-fund name	Currency	Counterparty	Type of collateral	Collateral received	Collateral pledged
Robeco QI European Conservative Equities	EUR	J.P. Morgan	Cash	–	410,000

8. Schedule of Investments

The Schedule of Investments of the sub-funds are included at the end of this report.

9. Securities lending

J.P. Morgan SE (previously named J.P. Morgan Bank Luxembourg S.A.) is lending agent for all Robeco Capital Growth Funds securities lending transactions. J.P. Morgan is authorized to retain a fee in an amount equal to (A) 25% for any loans which generate a return of 0.5% or less and (B) 10% for any loans which generate a return greater than 0.5% of the sum of (i) earnings derived from Authorised Investments (as adjusted for any Rebate paid or received by J.P. Morgan) (ii) any fee, paid or payable by Borrower with respect to loans (including any loan fee but excluding any compensation payable by borrower under the MSLA in connection with a loan (net, however, of any other amount payable by Lender in connection with such loan). Gains and losses on Cash Collateral investments shall not be taken into account in calculating earnings for the purpose of J.P. Morgan's fees. The following table shows the position of the collateralized securities lending transactions with first-class financial institutions as described in the prospectus at the end of the reporting period as well as the income from securities lending over the reporting period for the Company and the income for J.P. Morgan SE (previously named J.P. Morgan Bank Luxembourg S.A.) Income on securities lending transactions is recorded under the heading 'Securities lending income' in the Statement of operations and changes in net assets. Collateral received in the frame of the lending activity, primarily securities, is held in the name of the fund on an escrow account with external agents. In exceptional cases, the collateral is received in cash, which is not subject to reinvestment. More information on collateral received can be found on page 93 and further.

10. Taxes

The classes of shares of the sub-funds are liable in Luxembourg to an annual duty ('taxe d'abonnement'/'subscription tax') at the rate of 0.05% of their net assets calculated and payable at the end of each quarter. This rate is 0.01% per annum for institutional classes of shares such as class I, IB, IBH, IBxH, IH, 0IH, 2IH, IE, IEH, 0IEH, IHHi, IL, IExH, IMH, IMBxH, J, K, KE, KH, Y, YH, Z2H, ZB, ZBH, and ZH shares. To the extent that the assets of the sub-funds are invested in investment funds which are established in Luxembourg, no such tax is payable, provided that the relevant investment funds have been subject to this tax. The sub-funds will receive income from their investments after deduction of applicable withholding taxes in the country of origin. There are no Luxembourg income, withholding, capital gains, estate or inheritance taxes payable by the sub-funds.

Taxation of Chinese A shares:

Capital gains derived from the transfer of Chinese A shares on or after 17 November 2014 are (temporarily) exempt from the 10% capital withholding tax ('CWT').

Taxation Indian listed stocks

Capital gains realized on the disposal of Indian listed stocks within 12 months after purchase (short term gains) are subject to a 15% Indian capital gains tax. The disposal of Indian listed stocks after 12 months after purchase (long term gains) were exempt until 1 April 2018. Starting 1 April 2018 India also introduced a capital gains tax on long term gains at a rate of 10%. Until 17 December 2019, the capital gains taxes were taken into account on an arisen basis at the applicable rates for a short term gain or a long term gain without taking a provision into account. Since 17 December 2019, the capital gains taxes are accrued in the Net Asset Value and included in the Statement of net assets under the heading 'Other liabilities' and included in the Statement of Operations and Changes in Net Assets under 'Net realised gain/(loss) on currency exchange' for the capital gain taxes linked to realized gains and under 'Net Change in unrealised appreciation/depreciation on : currency exchange ' for the unrealized appreciation of investments during the year.

11. Management Company

The Board of Directors of the Company has appointed Robeco Institutional Asset Management B.V. as the Management Company to be responsible on a day-to-day basis for providing administration, marketing and investment management services in respect of the sub-funds.

Robeco Institutional Asset Management ("RIAM") is incorporated under the laws of The Netherlands on 21 May 1974 and at that time called Rotrusco B.V. On 25 February 1997, the name was changed into RIAM. RIAM holds an AIFMD license as referred to in Section 2:65 Wft. In addition, RIAM is licensed as a manager of UCITS (2:69b Wft, the Dutch Financial Supervision Act). RIAM is moreover authorized to manage individual assets and give advice with respect to financial instruments. RIAM is subject to supervision by the Dutch Authority for the Financial Markets (Stichting Autoriteit Financiële Markten, "AFM").

The Management Company has delegated the administration functions and registrar agent functions to J.P. Morgan SE (previously named J.P. Morgan Bank Luxembourg S.A.).

RIAM is part of ORIX Corporation Europe N.V. and also acts as the Management Company the following Luxembourg funds: Robeco QI Global Dynamic Duration, Robeco Global Total Return Bond Fund, Robeco All Strategies Funds, Robeco (LU) Funds III and Robeco Institutional Solutions Fund.

12. Portfolio Manager

Robeco Institutional Asset Management B.V. (RIAM), an investment management company forming part of the Robeco Group in Rotterdam, the Netherlands, manages the assets of the sub-funds on a day-to-day basis.

The Management company has appointed Boston Partners Global Investors Inc. as its Portfolio Manager for the sub-funds Robeco BP Global Premium Equities, Robeco BP US Premium Equities, Robeco BP US Large Cap Equities and Robeco BP US Select Opportunities Equities.

The Portfolio Manager for the sub-funds Robeco Asia-Pacific Equities, Robeco Chinese Equities, Robeco Indian Equities, Robeco Asian Stars Equities, Robeco Sustainable Asian Stars Equities and Robeco Chinese A-Share Equities is Robeco Hong Kong Ltd.

The Portfolio Manager for the sub-funds Robeco Sustainable European Stars Equities, RobecoSAM Circular Economy Equities, RobecoSAM Smart Energy Equities, RobecoSAM Smart Materials Equities, RobecoSAM Smart Mobility Equities, RobecoSAM Sustainable Healthy Living Equities and RobecoSAM Sustainable Water Equities is Robeco Schweiz AG.

Robeco Singapore Private Ltd. will be the Portfolio Manager for the sub-fund Robeco Sustainable Asian Bonds (expected to be launched in May 2022).

Notes to the financial statements as at 31 December 2021 (continued)

13. Cross investment between sub-funds

The Company is permitted to engage in cross investment between sub-funds within the umbrella structure. In case there are management fees or service fees charged on the cross investments, these fees are returned to the investor sub-fund. The following information pertains to the cross-investment between sub-funds within the Company as at 31 December 2021:

Investment	Sub-fund Currency	Market Value	% of net assets
Robeco QI Global Conservative Equities			
Robeco QI Chinese A-share Conservative Equities - Z EUR		5,101,703	1.31
	EUR	5,101,703	1.31
Robeco QI Emerging Markets Active Equities			
Robeco QI Chinese A-share Active Equities - Z EUR		37,168,885	5.48
	EUR	37,168,885	5.48
Robeco QI Emerging Markets Enhanced Index Equities			
Robeco QI Chinese A-share Active Equities - Z EUR		7,189,537	5.60
	USD	7,189,537	5.60
Robeco Chinese Equities			
Robeco Chinese A-Share Equities - I EUR		21,657,373	4.89
	EUR	21,657,373	4.89
Robeco Global Credits			
RobecoSAM Emerging SDG Credits - Z USD		91,673,244	3.71
	EUR	91,673,244	3.71
Robeco All Strategy Euro Bonds			
Robeco European High Yield Bonds - ZH EUR		20,805,719	5.46
	EUR	20,805,719	5.46
Robeco QI Multi Factor Absolute Return			
Robeco QI Global Multi-Factor Credits - ZH EUR		600,495	4.16
Robeco QI Global Multi-Factor High Yield - IH EUR		324,913	2.25
	EUR	925,409	6.41

Notes to the financial statements as at 31 December 2021 (continued)

13. Cross investment between sub-funds (continued)

If the sub-funds invest in UCITS/UCI's that are not part of the Robeco Group, all costs at the level of these UCITS/UCI's (including the non recoverable management fees, service fees, performance fees and/or transactions costs) shall be borne by the sub-funds ultimately and therefore by the shareholders. The management fee and service fee paid in the Robeco funds is restituted to the sub-funds and recorded in the Statement of operations and changes in net assets. During the period, the cross investments between the sub-funds mainly occurred in share-class Z of Robeco sub-fund which does not pay any management fees.

14. Management, service and performance fees

The different sub-funds or class of shares incur an annual management fee payable to the Management Company, which reflects all expenses related to the management of the sub-funds. Furthermore the different sub-funds or classes of shares incur an annual service fee payable to the Management Company reflecting all remaining expenses such as the fees of the administration agent, the registrar agent, auditors and legal advisers, the costs of custody (including custody fees and bank charges), the costs of depositary services, the costs of preparing, printing and distributing all prospectuses, memorandums, reports and other necessary documents concerning the Company, any fees and expenses involved in the registration of the Company with any governmental agency and stock exchange, the costs of publishing prices and operational expenses, and the cost of holding shareholders' meetings.

The annual charges, both management fee and service fee, are expressed as a percentage of the net asset value. The charges, paid quarterly, are based on the net asset value of the relevant period and are reflected in the share price.

The share classes Z do not pay management fees. For some sub-funds the Management Company is entitled to a performance fee, payable annually in arrears after the end of the reporting period. A performance fee for the relevant class of shares of the sub-fund is only due at the end of the financial year when the relevant class of shares of the sub-fund outperforms the relevant index or hurdle rate as indicated in the prospectus. Note that an outperformance of the relevant class of shares of the sub-fund does not imply a positive return of the relevant class of shares of the sub-fund, a performance fee is also due when the relevant class of shares of the sub-fund has a negative return but an outperformance over the relevant index or hurdle rate as indicated in the prospectus. This outperformance must have taken place since inception of the relevant class of share of the sub-fund or since the time that a performance fee was due. In the event that payment of the performance fee is due, the basis for the performance fee calculation for the next financial year will start at 0 (reset). In the event that no payment of the performance fee is due no reset will take place. In addition if a shareholder redeems or switches all or part of their shares before the end of a performance period, any accrued performance fee with respect to such shares will crystallize on that Valuation Day and will then become payable to the Management Company. The basis for the performance fee calculation will not reset on those valuation days at which performance fees crystallize following the redemption or switch of shares.

The following table shows the maximum percentages for the different outstanding classes of shares on an annual basis.

	Sub Fund currency	Performance fee	Percentage of average net assets
Robeco Sustainable Global Stars Equities			
D EUR	EUR	327	-
F EUR	EUR	7,731	0.01%

If the net asset value per share class exceeds EUR 1 billion the service fee will be reduced by 0.02% for the portion above 1 billion. If the net asset per share class value exceeds EUR 5 billion, the service fee will be reduced by a further 0.02% for the portion above EUR 5 billion.

15. Depositary fees

The Depositary bank is remunerated in accordance with the agreement between J.P. Morgan SE (previously named J.P. Morgan Bank Luxembourg S.A.) (acting as the depositary) and the Company. Effective from 1 April 2020, the depositary fees are paid by RIAM out of the service fee.

16. Other operating expenses

Effective from 1 April 2020, the banking fees relating to the assets of the sub-funds or expenses incurred thereof, such as proxy voting are paid by RIAM out of the service fee. The costs of establishing the Company have been paid entirely. If additional sub-funds are created in the future, these sub-funds will bear, in principle, their own formation expenses.

Notes to the financial statements as at 31 December 2021 (continued)

17. Transaction costs

The sub-funds and their classes of shares pay directly commissions, brokerage fees and taxes resulting from financial transactions. Transaction costs are included in the purchase/sale price of the securities.

18. Total Expense Ratio (TER)

The Total Expense Ratio ('TER') expresses the operational costs (e.g. management fee, service fee, performance fee, taxe d'abonnement, depositary fee and bank charges) charged to the sub-funds as a percentage of the average assets entrusted, calculated on a daily basis, during the reporting period. The TER as shown below do not include transaction costs. The other costs concern mainly bank charges, depositary fees and taxe d'abonnement. Total Expense Ratio are annualized for periods less than one year.

Notes to the financial statements as at 31 December 2021 (continued)

19. Broker commission

Robeco will ensure that the selection of counterparties for trade execution ('Brokers') will take place according to defined procedures and criteria to ensure best execution, taking into account execution capability and - where applicable - quality of investment research ('Research').

Under the influence of the MIFID II regulation RIAM decided to bear the research costs for most of the sub-funds of Robeco Capital Growth Funds from 2018. Only for the funds for which the American based asset manager Boston Partners is the Portfolio Manager, the research costs are charged to the fund. Below text on research costs is only applicable to the funds in the table below.

Brokers may charge execution only fees (excluding a fee for Research) and brokers may also charge a transaction fee consisting of two elements: a fee for the execution of an order and a fee for Research. Robeco will only pay a fee for Research if such Research is directly instrumental for improving the investment decision-making process within Robeco (via full service fees and via Commission Sharing Agreements ('CSA')). Having CSAs enables Robeco to unbundle research and execution services to fulfill best execution criteria. By using CSAs, Robeco can obtain research services from those providers who do not have an execution business or do not fit Robeco's best execution criteria. It is Robeco's policy that the abovementioned arrangements are only allowed as long as the research services under consideration research, securities advice, etc.) are related to the enhancement of Robeco investment process. Robeco makes use of:

1. Execution only fees for quantitatively managed equity sub-funds;
2. Full services fees for fundamentally managed equity sub-funds; and
3. CSAs for fundamentally managed equity sub-funds.

Research costs paid

Sub-Fund	Sub-Fund Currency	Total research costs paid
Robeco BP Global Premium Equities	EUR	959,615
Robeco BP US Premium Equities	USD	547,237
Robeco BP US Large Cap Equities	USD	595,084
Robeco BP US Select Opportunities Equities	USD	169,416

20. Portfolio Turnover Ratio (PTR)

This is the turnover ratio of the investments, against the average assets entrusted and this is a measure of the incurred transaction costs resulting from the investment portfolio policies pursued and the ensuing investment transactions. In the calculation method that is used the amount of turnover is determined by the sum of purchases and sales of investments, excluding derivative and liquidity instruments, less the sum of issuance and repurchase of own shares, divided by the daily average of the net assets. The portfolio turnover ratio is determined by expressing the amount of turnover as a percentage of the average assets entrusted. The following table shows the portfolio turnover ratios of the sub-funds.

Notes to the financial statements as at 31 December 2021 (continued)

Notes to the financial statements as at 31 December 2021 (continued)

21. Subsequent events

Robeco Institutional Asset Management B.V., as manager of the fund considers the Russia-Ukraine conflict as a significant event after closing the annual report 2021. Several sub-funds had an exposure to Russian assets. As a consequence of the conflict, no sub-funds were suspended and no restrictions on redemptions were put in place.

As the financial markets remain highly volatile at the moment of finalizing the 2021 financial statements it is impossible to estimate the impact with sufficient accuracy and reliability at this time. However, the impact will most likely have a downward effect on value of the fund.

Effective on 10 May 2022 the sub-fund Robeco QI Continental European Conservative Equities will be liquidated.

22. Commissions paid to affiliated parties

No transactions were effected with affiliated parties during the reporting period other than management activities.

23. Changes in the investment portfolio

The statement of changes in the investment portfolio during the period from 1 January 2021 to 31 December 2021 inclusive may be obtained free of charge at the offices of the Company, the Depositary, or any Nominee.

24. Retrocessions and trailer fees

Trailer fees for the marketing of the sub-funds (Commission d'Encours) are paid to distributors and assets managers from the management fee. No retrocession has been granted during the reporting period.

25. Personnel costs

Robeco Capital Growth Funds does not employ personnel.

Notes to the financial statements as at 31 December 2021 (continued)

28. Safeguards for non-audit services

In addition to the audit, KPMG Luxembourg Société anonyme provided indirectly permissible tax services to the Fund. Where non-audit services are provided to the Fund, full consideration of the financial and other implications for the independence of the auditor arising from such engagement are considered prior to proceeding.

Report Of The Réviseur D'Entreprises Agréé

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Robeco Capital Growth Funds and each of its sub-funds ("the Fund"), which comprise the statement of net assets and the schedule of investments as at December 31, 2021 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Robeco Capital Growth Funds and each of its sub-funds as at December 31, 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the EU Regulation N° 537/2014, the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the Audit of the Financial Statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation and existence of the investment in securities (Refer to note 2 of the financial statements)

Why the matter was considered to be one of the most significant to the audit

The investments in securities at market value represent between 86.10% and 100.20% of total net assets (by value) as at 31 December 2021 depending on sub-fund, and are considered to be the key driver of the Fund's performance. The market values of the majority of the Fund's investments are based on available market prices from an official stock exchange or another regulated market. Accordingly, the valuations of investments are considered to be a key audit matter due to the significance of the balances to the financial statements as a whole.

How the matter was addressed in our audit

We have performed the following procedures:

- for the investments in shares or units of underlying open-ended investment funds, we compared their valuation as at year-end to valuations recalculated using the audited or published net asset value per share or unit;
- for the investments where market prices were available, we compared their valuation using externally quoted prices;
- for the investments where market prices were unavailable, we verified that the valuations were performed in accordance with the valuation principles established for the Fund; and
- agreed holdings in the schedules of investments as at year-end to the confirmations received directly from the depositary bank.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Report Of The Reviser D'Entreprises Agree (continued)

Report on the audit of the financial statements (continued)

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d'entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d'entreprises agréé”. However, future events or conditions may cause the Fund or any of its sub-funds (except for the sub-fund where a decision or an intention to close exists) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter.

Report Of The Reviseur D'Entreprises Agree (continued)

Report on the audit of the financial statements (continued)

Report on other legal and regulatory requirements

We have been appointed as “réviseur d’entreprises agréé” by the General Meeting of the shareholders on May 27, 2021 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is 8 years.

We confirm that the prohibited non-audit services referred to in the EU Regulation N° 537/2014 were not provided and that we remained independent of the Fund in conducting the audit.
